It figures that with all the abuse in the foster care system, that you would approve a sole-source contract without providing data supporting how much Justice Benefits Inc. has "consistently helped the County maximize federal reimbursement by identifying all eligible expenditures, streamlining documentation and improving operational efficiency."

While JBI has proprietary technology and training, the only date provided is 2015, and surely the technology, documentation, and rules have changed since then. Foster Care should be based on current and best technology and training. Therefore, this sole-source should be rejected and made a competitive bid process.
