Mother Theresa even said that she did not see true poverty in the USA. Only spiritual poverty ____ Just some food for thought _

Although recent court rulings have forced the release of SNAP contingency reserves to keep families from going hungry during the federal shutdown, those actions only provide temporary relief from an administration that has consistently stripped away benefits from working families, seniors, and people with disabilities. I urge the County to work with other local governments to ensure that benefits are released quickly and that any emergency state and local expenditures to alleviate the crisis are reimbursed. The County government and San Diego residents should not have to fight to access emergency funds appropriated by Congress or be penalized for taking action to avert a crisis of the administration's making.

It's not a question, if we have the ability to continue life saving programs the answer is clearly yes. Why other people would vote against their own self interest still surprises me daily.

Thank you for advocating with the feds to have them stop playing political games. They are harming the most vulnerable in our communities, and misappropriating our tax dollars!

I mean, do we REALLY have to beg for the right to have food?; I am in total disbelief of this non-human we call our President

Thank you, Chair Lawson Remer & Supervisor Aguirre, for this timely advocacy. In the last few weeks, the Jacobs & Cushman San Diego Food Bank has seen almost a 10% increase in pounds of food requested and distributed through our distributions and through our nonprofit partners. Additionally, we've seen a 6% rise in requested appointments for our Client Choice Pantry in Vista and a 10 fold increase in people signing up for a Food Bank ID card...all due to the federal government shutdown and SNAP benefits being paused. Although the USDA announced use of contingency funds for SNAP, it also stated that recipients should only expect partial payments. It may also take the State weeks to disburse. The need is urgent, the time to act is now. Our countywide network of partners and distribution sites is fully operational and ready to serve San Diegans in need. Thank you for your continued partnership. Together, we can ensure no one in our community goes hungry during this critical time.

(Trumpet blaring ta ta da da): Terra and Paloma are here to save the day. Send a letter to save the residents in San Diego!

The entire country is aware of the situation and the party responsible.

Waste of time. Especially thinking residents in San Diego should be prioritized.

No need to Waive Board Policy A-72 Agenda and Related Process, Section 2.C.2.ii

BTW: No such thing as San Diegans. There are Americans and others residing in this county. Many "others" should not be here due to their illegal status and are not entitled to be in America or to freebies.

I don't know why San Diego is so special that you need to spend money on this. It is well intentioned, but it will probably be just one more in a huge stack of letters, and I worry after all this effort, that a blank sheet of paper might well be as effective.

And this well intentioned advice to the US Government is just one more reason why government operations in general is within the jurisdiction of the Board, so please avoid calling out people like Consuelo or Mark or Michael or anyone else for being off topic when they discuss general government.

why can't the dems get it together and sign the CR? Why should our funds pay for illegals and homeless when the people are busting their butts to make it happen.

I hope this is a moot issue by the time you meet, but if it isn't, please tell the USDA to do its job and release the funds for SNAP. The cruelty of the Trump Administration is unprecedented and unconscionable. Thank you for everything you are doing to protect your constituents from it.

Where's our reserves? Stop the wasteful spending on homeless and the illegals and concentrate on the tax payers. Great idea take a paycut or best of all just "steppe" down!
