As far as I can tell, you have told us what good things you'll do, but not why they are a priority over other projects. You have not identified a specific reason for spending \$750K on this other than that they are on the priority list.

You say "If approved, construction costs are estimated to be \$600,000, including contingencies, for a total cost of \$750,000." Which implies that the fees are not included and are way more than 10%, maybe 40%?

Please reject and rewrite.
