Bias in the report. Unfair to people of color. Racist in origins. Facts skewed to anti-gun narrative. End game violates United States Constitution. We see what you are trying to do. Why not focus on just violence? It is not the gun nor was it the Ford in the Waukesha Christmas massacre. It is sick people with no morals or respect for life. It's a tool. Fists feat and blunt objects kill more frequently than guns or cars. Enforce current laws. Rehire the police you fired due to death jab refusal.

My name is John Baldwin and I oppose this proposal, ad the HARC Gun Violence Study found San Diego does

not have a gun violence problem, it has a mental health crisis. Simply passing restrictive policies that infringe on our Second Amendment Rights do nothing to address the underlying issue. What's more, DAs often use policies like this to strengthen conviction rates; often impacting communities of color. Gun storage is already a legal requirement, therefore passing new gun laws are unnecessary.

We need a sense of urgency to prevent as many of deaths and injuries in the County as possible. Gun violence impacts not only these victims, but also their families, friends, and communities.

Every life matters. Safety always comes first why would we not want all of our people to be safe? If my son would have had a safety lock or a locked box for his gun maybe he would not have impulsively taken his most precious life. His life mattered and I don't want to see anyone else suffer from gun violence and suicide. Pass this bill and stop this insanity. We can do it and we should, protect each other. Thank you for your compassion and intelligence .

Yesterday, a child was fatally shot by another child in Fallbrook. An irresponsible gun owner left one child dead, one a murderer, and a community without full fire protection as respondents process the trauma. There are no accidental shootings. Gun violence is preventable. Awareness training and free gun locks are part of this program.

"Gun Violence Reduction" is a noble goal, but this item concerns me greatly, as many of the 'solutions' are vague with few details about what actual actions will be taken. It seems to me a far better way to combat ANY type of violence is to A) enforce existing laws, and B) keep violent criminals in jail and off the street. Until those simple measures are taken, today's actions are just window dressing.

I support any effort that seeks to improve community safety while not infringing on lawful gun ownership. More information regarding the "Gun Violence Reduction Advisory Group" composition would be beneficial. Will this group include law enforcement and folks that are knowledgeable about firearms? Clarification on "home visits would be appreciated. Who will be performing them and under what circumstances would they be conducted? Gun locks and safety training is already California law.

I strongly support the Gun Violence Reduction Community Needs Assessment Report! Thank you for your attention to the epidemic of gun violence in our country. Together through cooperation between state and local government, and the people of San Diego, we can begin to mitigate the damage that is caused everyday by gun violence. We need more education on suicide prevention and domestic violence; and a central platform for communication for individuals in gun violence prevention.

I support the recommendations in the HARC report and would like the County to authorize the submission of grant applications that will support violence prevention and intervention programs and services; and to direct staff to return in early 2024 with plans for how gun violence reduction work will be structured and organized within the County.

I fully support the recommendations in this report and would like to see more done to eliminate gun violence in our community. This is a nice start but far from where we need to be in terms of having safe communities. I'm hugely in support of distributing gun locks and screening prospective gun owners, but as previously stated, these are good first steps not final ones. Thank you.

I support the recommendations provided in the Gun Violence Reduction Community Needs Assessment Report and ask the Supervisors to continue this important work to prevent and address the impacts of gun violence. I agree that it is critical to future efforts that the work be structured under a central, dedicated group, such as an Office of Violence Prevention with specific expertise in gun violence.

I support the recommendations in the report and I appreciate your support for this comprehensive initiative. Given the prevalence of suicide, please give special attention to suicide prevention. As a member of Showing up for Racial Justice-North County, I especially appreciate the attention to community outreach programs. I strongly support the plans for implementation of a monitoring and evaluation framework to assess impacts of the activities and to discover and implement best practices.

I strongly support the recommendations provided in the Gun Violence Reduction Community Needs Assessment Report, and appreciate your work to address gun violence. There is a real urgency to move forward in a structured way, perhaps under the Office of Violence Prevention. I am particularly interested in the recommendations for gun lock distribution, and provision of education on suicide prevention and domestic violence. Thank you for your efforts to support safe neighborhoods.

I support the recommendations of the report and encourage continued dialog between the two agencies that represent divergent views about Gun Violence. SD4 GVP and their community allies and the SD Gun Owners Political group. Bringing these group together and discussing Gun Violence Prevention will only work if the primary protagonists start talking to each other. Legislation can be produced!!

It is absolutely ESSENTIAL that we continue to push for safer communities by enacting laws that prevent gun violence. Actions such as gun buyback programs and other rewards for turning in firearms are proven to reduce gun violence in communities. We should continue to be a leader in this space and set an example for all other communities across the U.S. in order to keep our children and truly all affected communities safer.
