**Date:** Monday, November 3, 2025 11:14:21 AM

---

Good Morning, Supervisors,

The Feds have taken positive action on SNAP benefits.

Since it was announced Monday 11/3 that the contingency reserves will be use to fund SNAP benefits, the letter mentioned in the recommendations would be inappropriate. And the other CAO recommendations like enhancing legislative support are part of establishing a bridge program.

I don't know either why San Diego is so special that you need to spend money on this. It is well intentioned, but it will probably be just one more in a huge stack of letters, and I worry after all this effort, that a blank sheet of paper might well be as effective.

And this well intentioned advice to the US Government is just one more reason why government operations in general is within the jurisdiction of the Board, so please avoid calling out people like Consuelo or Mark or Michael or anyone else for being off topic when they discuss general government.

Regards,

Paul Henkin
