The police have nothing to do with detaining immigrants. Nor should they have the right to detain or Question anybody in question to their citizenship. This allows for more power, which they do not need. They are not border agents, and if they want to become one. They need to go through the appropriate process.

Thank you for convening the Truth Act Forum 2025. As a San Diego resident I support our Community Members who are supported by the Truth Act which stops local law enforcement from collusion with Federal ICE. Keep San Diego dollars in our communities and not to aide federally funded ICE. ICE demonstrates racial profiling and unjust detention of Immigrants. We in Dan Diego will not stand for ICE criminal acts in our communities.

Let ICE do their job without taking time and resources away from the sheriff's Department. All San Diegans deserve to live in safety and not in fear of being separated from their loved ones. At this critical time in our history, it is more important than ever to stand up for the rights of those most vulnerable and demonstrate that our city's policies are for the people, not against them.

The research is settled that having local law enforcement collaborate or even have the appearance of collaboration with DHS or ICE undermines community trust in law enforcement and other social institutions. As a lifetime resident of District 2, I strongly oppose the San Diego Sherrifs Office Cooperating with Immigration and Customs Enforcement.

I grew up with and and close friends with many Hispanic San Diego residents, and due to the current administration's weaponization of ICE against it's political adversaries, I fear for their safety and the safety of their families, and worry that if persecuted by ICE, their rights will not be upheld. Please, for the safety of San Diego residents, adhere to the county sanctuary policy, and halt collaboration with Immigration Customs and Enforcement.

I am a resident of District 3 believe the Sheriff's policy of transferring individuals to ICE and notifying ICE of release dates results in double punishment and creates a separate justice system for immigrants. This runs counter to San Diego County's commitment to racial justice and equity, as well as the Framework for the Future of San Diego County. Why are county resources continuing to be utilized to separate families and deport community members. It's deplorable. Compliance with San Diego county board policy L-2 is required to follow state law and maintain public trust. Sheriff Martinez is responsible to make sure our laws are followed, she continues to say she will follow state law yet is actively engaged in violating local policy and state law SB 54 when she continues to transfer individuals to ICE without a judicial warrant. The Sheriff's continued collusion with DHS/ICE not only aids in unjust detention, deportation and separation of families in our region but is dangerous in the current Trump climate when due process is being denied and people are being deported to serve life sentences in violent detention centers like CECOT in El Salvador.

As a resident of District 5, I insist that the San Diego Co. Sheriff's Office immediately adopt the county's sanctuary policy & cease using local financial & human resources to support the federal administration's anti-immigrant agenda. Complying w/ ICE requests is optional under the law, & these activities cost money that SD county could use elsewhere; indeed, research shows SDSO transfers cost San Diego Co. taxpayers approximately \$50,000 annually because the county is not reimbursed for this. Fiscal concerns aside, the local sheriff's office, a criminal JUSTICE agency, should NOT be supporting raids, detentions, & deportations which under the current administration, ignore federal law, violate due process, and promote intimidation. In sum, the SD sheriff's office should not, under any circumstances, be aiding and abetting unconstitutional actions, & our local tax dollars should not be indirectly funding such constitutional violations, either.

The cruel policies of the Trump administration have created a climate of fear in all our communities. Community members, including US citizens and legal residents are fearful that they can be targets of this senseless operation. Any semblance of entanglement between ICE and our County particularly the Sheriff's Department erodes community trust to our local government. Hence such entanglement has to end. Limited County resources should not be used to promote a policy that instills fear in our communities. The Sheriff's Department should follow State law (SB54) and the County's L-2 policy.

Cities working with ICE to deport illegal immigrant criminals is VITAL to ensure public safety and uphold the rule of law. In 2024, ICE detained over 100,000 immigrants with criminal convictions, including 12,000 for violent crimes like assault or robbery, per DHS data. Non-cooperation by sanctuary cities can shield these offenders, risking further crimes; a 2017 DOJ report linked 40% of repeat offenses in some areas to lax local policies. Collaboration ensures swift removal of verified threats, deterring illegal re-entry—ICE reported 15,000 re-entry arrests in 2023. Critics might argue it erodes trust in communities, but ICE's Secure Communities program prioritizes SERIOUS OFFENDERS, not minor violations. Cooperation streamlines enforcement, reduces local costs, and reinforces legal accountability. And, a February 2025 poll showed 89% support deporting undocumented immigrants with criminal convictions. This is a common sense view that is being fear mongered by critics.

I live & have my law practice in District 5. The Sheriff's Office must adopt the county sanctuary policy & stop using county resources to respond to ICE requests. For 15 years I have litigated against Border Patrol. I can attest they're physically abusive & regularly violate the 4th and 5th amendment rights of immigrants and citizens. Working with ICE will frighten law abiding immigrants from assisting the Sherrif's & other LEA's efforts to catch criminals. This will harm all residents of the County. Also, it is unlawful for LEA's to detain anyone once they served their time. They can't detain the person for being undocumented because that is a civil violation, not criminal. Sheriffs can't enforce civil violations. Crossing unlawfully is a misdemeanor, but the sheriff would have to obtain an arrest warrant & arrest the person before any lawful detention may occur. Lastly it violates federal preemption clause, as only the federal government can enforce immigration laws.

As a resident of District 2, I'm urging the San Diego County Sheriff's Office to fully adopt the county's sanctuary policy and end its voluntary collaboration with ICE. These actions don't make our communities safer, they create fear, separate families, and erode trust in local law enforcement.

This matters to me because no one should have to live in constant fear of being torn away from their loved ones simply because of their immigration status. Our county has the opportunity to lead with compassion and fairness. I want to see policies that reflect those values within our communities in San Diego.

Thank you.

I'm a constituent in District 4 — I strongly oppose our local law enforcement carrying out federal immigration law. We are supposed to be a sanctuary city, these people are community members, and to me it's a complete waste of taxpayer dollars to continue doing this. Involving ICE does nothing but separate families, instill fear in all community members, and don't actually do anything to keep us safe. It's clear that there have been mistakes made by federal law enforcement as far as people's immigration information and as such are denying innocent residents due process when being apprehended by ICE and deported. This is unacceptable to me. Again, I strongly oppose. Thank you.

As a resident of District

5, I urge the San Diego County Sheriff's Office to immediately adopt the county sanctuary policy and stop using county resources to respond to ICE requests for notification and transfers which result in the separation of families and deportation of community members. All San Diegans deserve to live in a region where loved ones stay together and they do not live in fear that an encounter with law enforcement will result in deportation. Thank you.

As a resident of District 1, I urge the San Diego County Sheriff's Office to immediately adopt the county sanctuary policy and stop using county resources to respond to ICE requests for notification and transfers which result in the separation of families and deportation of community members. The apprehensions by ICE without honoring constitutional rights and due process is causing harassment, mistaken arrest and unlawful detainments in our community. Making us ALL FEEL LESS safe - All San Diegans deserve to live in a region where loved ones stay together and they do not live in fear that an encounter with law enforcement will result in deportation harassment. Thank you.

All San Diegans deserve to live in a region where loved ones stay together and they do not live in fear that an encounter with law enforcement will result in deportation. The ruthless kidnappings by ICE without honoring constitutional rights and due process makes ALL of us LESS safe - not the presence of immigrants, of any status. Hold the Sheriff accountable for going rogue.

Convicted violent criminal illegal foreigners are NOT community members, they are NOT San Diegans, they are NOT asylum seekers, they are NOT new comers and they are definitely NOT "new Americans". The county does not set policy for the Sheriff. The Sheriff is elected by the people, just as the supervisors are elected.

South Bay People Power demands that Sheriff Martinez IMMEDIATELY COMPLY with County Board Policy L-2 and STOP DHS/ICE notifications, transfers, as well as access to county property, information, data, and any other county resources, without a judicial warrant. We strongly object to the sheriff's use of a "public safety" narrative to hide the fact that she is wasting tax dollars on discriminatory and unjust practices and defying State law SB 54 and County Board Policy L-2. Sheriff Martinez is FUNNELING individuals to ICE who should be released from custody, SEPARATING families, and HARMING our communities. We need County officials to promote real safety and community trust in San Diego County.

The San Diego County Sheriff must stop being complicit in the deportation of our community members. We demand the Sheriff stop allowing ICE access to county facilities, end all transfers and notifications to ICE, and stop sharing and receiving resources from DHS agencies.

It is contrary to local law and simple

human decency for San Diego to continue to collaborate with federal immigration agents, especially as we continue to witness ICE/DHS's flagrant failure to either follow the law or demonstrate basic competence in their jobs.

I am a constituent of Joel Anderson, District 2. The Sheriff, the person who's supposed to uphold the law, too often refuses to follow the law when it applies to her - refusing to release CIRB reports, refusing to cooperate with CLERB recommendations and now refusing to adopt the County's sanctuary policy. The Board of Supervisors' legally passed Board Policy L-2 in December, requiring the SDSO to stop using vital county resources and taxpayer dollars to respond to ICE requests for notification and transfers. It's past time for the Sheriff to stop violating that policy by voluntarily collaborating with DHS. Our region is stronger and safer when our neighbors need not fear that an encounter with law enforcement will result in deportation. And our region will always be stronger and safer when the Sheriff fully complies with the laws, rules and policies that the people of San Diego and our elected representatives establish, too.

The Sheriff's Department is paid to serve and protect our ENTIRE law abiding community. Aiding federal agents in immigration enforcement is not their job! Focus on criminals - regardless of immigration status! Keep us safe from people breaking the law not going after people who are contributing to our community in positive ways.

STOP sharing information, data and resources with DHS/ICE without a judicial warrant.

As a district 4 resident and Data and Policy Analyst for Al Otro Lado, a nonprofit that provides humanitarian and legal aid to people on the move in the US and Mexico, I urge San Diego county to abandon the use of local law enforcement resources to support federal immigration enforcement. Such collaborative practices with ICE spread fear in communities, creating a chilling effect on public safety and local economies by discouraging noncitizen residents from seeking needed healthcare, utilizing public spaces, attending school or work, and reporting experiences of domestic violence. Law enforcement collaboration with ICE does not make communities safer and is fiscally irresponsible, prioritizing federal enforcement over local needs. San Diego sheriff collaborations with ICE means that noncitizens residing in rural areas of the county are disproportionately impacted by increased immigration enforcement carried out by local law enforcement, further isolating these communities.

As a resident of District 5, I urge the San Diego County Sheriff's Office to immediately adopt the county sanctuary policy that passed the San Diego County Board of Supervisors in December 2024. We do not need our money and resources being used to respond to ICE requests. There are so many needs within the county and all this does is separate families and make people live in fear.

As a resident of District 5, I strongly oppose Sheriff Kelly Martinez's refusal to adopt the county sanctuary policy that passed the San Diego County Board of Supervisors and I urge the San Diego County Sheriff's Office to immediately adopt the sanctuary policy. We need to stop using county resources to respond to ICE requests for notification and transfers which result in the separation of families and deportation of community members. This does nothing to keep San Diego safe-- it only furthers the violent and racist federal agenda while creating trauma within our communities. Sheriff Martinez's decision to ignore the policy that was passed by the San Diego County Board of Supervisors shows that political agendas will be prioritized over the safety and wellbeing of our community. The people and families of San Diego County deserve better than this.

As a resident of district 2, I am writing to oppose any potential county collaboration with ICE. These are not normal times. ICE is not carrying out immigration actions solidly based in the law and with appropriate due process. People are being essentially kidnapped off the street, by plain clothed "officers" who cover their faces and do not clearly identify themselves as law enforcement. ICE is detaining people, despite their legal status, to carry out an unconstitutional immigration policy designed to quell protest and speech. Our citizens and those here with legal status are not safe from ICE and its arbitrary practices, based in revenge and retribution. Until ICE can demonstrate that they will act within the law and consistently with the constitution, the county should not be complicit by collaborating with their actions. If the sheriff's department agrees to collaborate, then they are willing to facilitate and cooperate with unconstitutional and inhumane practices.

As a resident of District 2, I urge the San Diego County Sheriff's Office to immediately adopt the county sanctuary policy and stop using county resources to respond to ICE requests for notification and transfers which result in the separation of families and deportation of community members. We, the taxpayer are being billed and are paying for this, which is unacceptable. Immigrants have always been vital and important members of our community and engendering fear and terror among them is harming our communities. Not to mention the abhorrent practice that ICE is implementing of deporting immigrants, WITHOUT DUE PROCESS, to CECOT prison in El Salvador, which again, taxpayers are funding to the tune of \$6M a year to imprison immigrants and even legal U.S. residents who have not committed actual crimes. This is a gross miscarriage of justice. I urge the County Board to require the Sheriff's Office to comply with the county's sanctuary policy.

I just want to ensure that San Diegans are able to feel safe in their communities and do not have to fear ICE. Given the shocking and concerning lack of due process rights being afforded to folks in the immigration system, it is important that San Diego law enforcement not cooperate with ICE. We must ensure San Diegans do not fear in their daily lives that they could be placed into a system that does not currently afford them a fair chance to fight their immigration cases. Our community depends on immigrants, and given our location along the border, our county is home to cross-border families that must be allowed to stay together. San Diego County is a great place to live because of its rich diversity and immigrant population, not in spite of it. I urge the San Diego Sheriff's Office to fully adopt the county's sanctuary policy and to not cooperate with DHS. Thank you.
