I am a volunteer for Planned Parenthood and I support Prop 35. Lack of funding restricts access to primary care, specialty care, and reproductive healthcare. Health care organizations who accept Medi-Cal patients receive lower reimbursement rates and the organizations end up taking on the costs. Expanded education and training programs will create a pipeline of new workers & providers to address worker shortages. 90% of Planned Parenthood's patients rely on Medi-Cal

Scripps Health supports Prop 35 which dedicates funding for the Medicaid (Medi-Cal) program in California. It helps to ensure our communities have access to the care they need. We appreciate the County's consideration of this proposition.

More than 1/3 of CA relies on MediCal, lack of MediCal funding limits access to primary and specialty care. A yes vote on Prop 35 will help expanded education&training programs to create a pipeline of new workers & providers. Yes on Prop 35 is a responsible vote preventing the state from redirecting funds for non-health care purposes, by requiring 99% of revenues to be used for patient care and succeed on annual independent performance audits to ensure funds are spent effectively and as intended

The Hospital Association of San Diego & Imperial Counties urges the board to support this item. Prop 35 would dedicate critically needed funding for the Medi-Cal program which covers nearly 1 million lives in San Diego County. Prop 35 increases funding for Medi-Cal without introducing new taxes. If passed, Prop 35 would generate \$7 to \$8 million annually to help preserve existing health services and support vital health care workforce training to address worker shortage.

TrueCare urges the Board to vote in favor of adopting Prop 35, a measure securing Medi-Cal funding for 15 million Californians without raising taxes. From primary care to emergency services, the resulting strain from inadequate Medi-Cal funding is felt both by patients and healthcare providers across the state. Adopting this commonsense measure will ensure that the state's resources are allocated towards what they were originally intended for: patient care.

In light of California's ongoing healthcare crisis, I urge the Board to vote in favor of adopting a resolution to support Prop 35. The state healthcare system is reckoning with the effects of being chronically underfunded. Primary care, specialist care, and emergency services are all marred with growing wait times and shrinking resources, resulting in widening care gaps for Medi-Cal patients. Prop 35 combats this by preventing existing Medi-Cal funds from being diverted away from healthcare.

I'm Laura LaBelle, a volunteer w/Planned Parenthood. I support Prop35. 90% PP patients rely on Medi-Cal.Lack of funding not only severely limits access to primary/specialty care, but perpetuates unhealthy communities. Prop35 requires 99% revenue to be used for patient care. To help ensure funds are spent as intended, annual independent audits will be performed. When more than 1/3of the state relies on Medi-Cal, we should be safeguarding access to readily available, quality healthcare. Thank you

San Ysidro Health supports Prop 35 because our health care system is in crisis: hospitals and clinics are closing, ERs are overcrowded, and patients face long waits for essential care. Prop 35 addresses these issues by securing ongoing Medi-Cal funding—without raising taxes—to expand access to community health clinics, hospitals, primary care, mental health, OB/GYN, and specialty care providers. Prop 35 protects and expands care while bringing more federal dollars to the state.

Please support Prop 35, which will provide much needed stability for millions of Medi-Cal patients (including half of all children in the state, low-income, seniors, and the disabled, and ER patients), improving their access to health care. Prop 35 creates a stakeholder advisory committee made up of health care representatives to advise how the money is spent each year, and institutes an auditing process. 99% of funds must go for patient care.
