The Unincorporated Area has been under-served and under-resourced for far too long. We should have the capacity to advocate for our own interests.

One has only to look at Spring Valley and see that the current representation that talks about equity has failed that community.

Yes to Item 28 and dedicated UA representation at SANDAG and beyond.

Please yes. Unincorporated areas have been neglected too long

Coastal cities should not dominate inland county residents.

Becky Rapp

The BOS by its very charter is to represent the community it serves. The unincorporated areas are a unique and highly valuable asset in the county and the voices of its residents should have as big a platform to be heard as the urban areas who have a louder voice simply by default of density.

This BOS majority has marginalized nearly 600k unincorporated residents. You have no right to do that.

A RESOLUTION SUPPORTING STATE LEGISLATION TO ENHANCE REPRESENTATION FOR UNINCORPORATED COMMUNITIES ON THE SAN DIEGO ASSOCIATION OF GOVERNMENTS BOARD OF DIRECTORS

Robert Littlejohn

I support the intention of this resolution and urge the Board of Supervisors to choose the path forward that will best achieve the objective of ensuring that the unincorporated areas of San Diego County will have a vote on the SANDAG board. That may mean tabling this item until the language of the new State Senate Bill is available, or approving it as is, but it's simply wrong that 1/6 of the county's population does not currently have a vote on the SANDAG board and I urge the Board to act to correct that. Thank you.

Rural areas are being taxed without representation. This must stop!!

It's embarrassing to think that the unincorporated pays taxes but is refused representation. The unincorporated represents over 500,000 individuals but not enough to have a voting voice. Please explain why. The communities would like to know.

I am neutral on this because, while it makes sense that unincorporated San Diego County should have representation on SANDAG Board of Directors, the Board uses an undemocratic tally vote (ie, unweighted vote), which suppresses the voices of the citizens of San Diego (>40% of the County population) and Chula Vista significantly. AB 805 (2017) passed so that a weighted vote of the Board could be taken, which gives proportional representation to all cities; however, the Board refuses to use the weighted vote on important matters (eg 2025 Regional Plan). Small suburban communities in the county, eg Del Mar with 3900 residents, have vastly outsized voting power. This hurts San Diego and Chula Vista, and the result is, insufficient resources for better bus and rail transit systems, and 93 miles of highway expansion over the next 10 years (\$2.3B) that won't ultimately reduce congestion but will greatly increase greenhouse gas emissions. San Diego and Chula Vista: Call for the Weighted Vote!

As a resident (of the unincorporated) Valley Center, District 5 I have no representation at SANDAG. No control or say in how decisions are made or way to express my concerns. SANDAG is supposed to upgrade roads and transportation for the Entire County, but our concerns are not represented at this time with no voting representative for the unincorporated area. So having a voting representative elected by the people of that area would be a great improvement. The unincorporated residents pay their share of taxes to SANDAG, but have no vote. I support this measure to start to correct this problem. Thank you!

PLEASE TABLE THIS ITEM at the present time.

Having a voting seat on SANDAG for the unincorporated County is critically important. But we need to be able to have time to obtain input from our community planning groups and sync up the language with the State Senate Bill when it is brought back in 2026.

We want to support the County BOS efforts to support the voting seat but would like to have it all worked out without further revision. Thank you.

I championed this at SANDAG along with a few supportive Mayors and legislators and am glad to see that the County wants to support this change.

SANDAG is supposed to upgrade roads and transportation for the entire county, but has no voting representative for the unincorporated area. So having a voting representative elected by the people of that area would be a great improvement. But until then, I call it taxation without representation. The unincorporated residents pay their share of taxes to SANDAG, but have no vote there.

However, you may want to reconsider this item in February to give East County community groups more time to contribute their ideas on this matter.

Please Table this item:

The Association of Planning Groups - San Diego County which represents all 18 County Community Planning Groups, along with individual CSGs, was recently notified that this resolution was going to be brought to the BOS for a support vote.

Since initially being notified about the proposed SB 240 we have been advised that the bill is not moving forward at this time.

As having a voting seat on SANDAG is of the utmost importance to the Unincorporated Area, we ask that you please table this item until after January, 2026. This will allow the APG and each of the individual 18 Community Planning Groups to have more time to review and respond to this County resolution and to any revisions made to the Senate Bill once it has been brought back in 2026.

Thank you, Robin Joy Maxson, Chair

Association of Planning Groups - San Diego County
