When the public can't tell the difference between legitimate officers and impostors, everyone loses — especially the communities already targeted by exploitation and fear.

In San Diego County, we need to draw the line and say no to masked federal chaos, no to deception, and no to the idea that accountability is optional. That is why I support the legislation to stop the sell of fake ICE gear that will also require ICE agents to identify themselves and prohibit them from wearing masks.

I support this common sense proposal to stop ICE agents from taking people without identifying themselves and wearing masks. It makes complete sense that imposters can and will take people without authorization. If we have no way of knowing who is ICE, we can assume that people are being kidnapped. I support the opposition to sales of counterfeit ICE gear (although, what is REAL ICE gear anyway???)
Thank you.

My name is Dre (Tyler Andre), and I am the CEO of Algentem LLC, a local small business and member of Business For Good. I am writing in strong support of County efforts to stop ICE impersonators and the sale/distribution of counterfeit law enforcement gear.

This is an urgent public safety issue. The rise of individuals posing as federal agents has created fear and confusion in our communities, especially among immigrants and vulnerable residents.

No one should have to question whether the person knocking on their door is truly an officer or an impersonator. Stopping the sale and possession of fake law enforcement gear is essential to restoring public trust and ensuring the safety of all San Diegans.

I urge the County to take swift and decisive action to prohibit these fraudulent practices and to coordinate with community advocates and local law enforcement to educate the public and strengthen accountability. Protecting our residents from deception and fear should be a top priority.

I am Ian M Seruelo, Chairperson of the San Diego Immigrant Rights Consortium (SDIRC). SDIRC strongly supports efforts to stop those who terrorize our communities including those who impersonate ICE and immigration agents. As white supremacy groups are emboldened by current rhetoric and racist policies of this administration, this measure is important to respond to incidents of ICE impersonations.

On behalf of the American Friends Service Committee's US-Mexico Border Program, which works with migrants throughout San Diego County, I submit this comment in support of this initiative. Working families throughout San Diego County are already living with anxiety and fear because of the egregious and unaccountable immigration enforcement by the federal government. The ease by which people wishing to cause further harm, by either impersonating a federal agent or purchasing gear to give the appearance that they are associated with federal agencies, could cause greater harm to San Diego residents. This measure is a good first step at ensuring that ill-intentioned individuals are held accountable if they seek to harm others by impersonating federal agents in San Diego County.

I support your position. I offer this perspective, the United States of America is a country built and inhabited by immigrants and their ancestors. Here in San Diego County, unlike a majority of the State and the nation, we border Mexico. Many San Diego "American citizens" reside in Mexico due to the high cost of living (groceries,

housing, gasoline, etc.). Citizens who cannot afford to live where they work should not have to worry about being improperly and/or illegally rounded up and put in a detention facility. We need to stand up for what is right. We need to make sure all citizens, those visiting/working with valid visas, and those pursuing a legal path to citizenship are not treated as the most heinous of criminals. We have had US Customs and Immigration Enforcement for many years. However, unlike in the past, they now operate like a vigilante group, rather than a law enforcement agency. ICE's lawlessness approach needs to be fixed & I agree with all who support you on this.

My name is Vanessa and I worked at Pilipino Workers Center in San Diego. We work with mainly female caregivers across San Diego who rely on public transit and other forms of public travel. Right now, our members, especially the female caregivers, are at risk to being taken by unauthorized individuals. We do not want kidnapping to be allowed in San Diego, we need to protect our most vulnerable citizens. Please support this motion by Ms. Lawson-Remer. Thank you.

Thank you, Board President Terra Lawson-Remer and staff, for introducing this important item.

As a small business owner and Advocacy Co-Chair at Business For Good, I've seen firsthand how fear and confusion around ICE/federal immigration enforcement actions in our neighborhoods/ business corridors are impacting the health and economic stability of our workers and local businesses.

Our community thrives when everyone feels safe to show up to work, shop locally, connect with neighbors, and attend community events.

No one should fear being targeted by impostors posing as ICE/fed agents and enforcing accountability for counterfeit sellers is a necessary step to protect consumers and prevent fraud.

I strongly urge the County Board of Supervisors to vote YES on this item and to support the VISIBLE Act (SB 2212).

Dear San Diego County Board of Supervisors,

Please adopt Item #18, Stop ICE Impersonators and Counterfeit Gear Supplies, to protect our community from federal immigration overreach. I've witnessed families detained and devastated, fear now keeps many from simple acts like buying food, picking up their children, or walking in their neighborhoods. These are long-time residents who pay taxes and contribute to our community.

Our democracy depends on due process and safety for all. The City of San Diego has already acted; now the County must do the same. Please stand up for constitutional rights and reject intimidation tactics. The region is watching—do the right thing and protect our people.

Sincerely,
Lori Lipsman

In support of items 17 and 18

Please protect our rights by refusing cooperation with illegal and unjust actions by federal law enforcement. It is imperative that San Diego's CLEAR Ordinance is passed to require proper identification and warrants in order for federal agents to access any non-public city or county property and city- or county-controlled data, including ending the gathering of information from technologies like license plate readers. This information should neither be collected nor shared as it puts San Diegans in danger. We also urge you to protect San Diegans against discrimination, and put a stop to all enforcement actions that target individuals based on their protected characteristics, including race, immigration status, and gender identity. As our elected officials, we need you to limit the city's and county's involvement in federal enforcement activities and to prevent city or county resources from being used to bypass due process.

Since ICE agents are hiding behind masks and not providing any proper ID, I agree that companies should not be selling apparel products that would allow a person to impersonate an ICE agent. I don't think the ban should be limited to just ICE imposters, the apparel ban should extend to anyone sells apparel to the public that could be used to impersonate any kind of federal or state law enforcement officer.

Alliance San Diego fully supports this board letter, and effort to protect San Diego families. There is a lot of fear in the community right now, and the last thing we need is impersonators creating more fear. Additionally, we also fully support federal law enforcement being required to fully identify themselves and prohibits masking. Our communities deserve accountability and transparency, which includes being able to identify officers.

Criminals are now roaming freely, assaulting and kidnapping anyone they see as vulnerable. We are seeing actual kidnappings happen, as warrantless, profiling takes place daily for "traffickers" and "bounty hunters" This has created chaos. We see the worst of humanity brutalize and kidnap anyone they can, using masks and unmarked vehicles. We have NO way of knowing they are connected to a real agency or are sending their victims to a life as a human trafficking victims. Young mothers ripped from their babies in broad daylight by WHO exactly?

Video after video show groups of random men, often dressed in fake ICE gear refusing to show warrants, identify themselves or show badge numbers. This is a tragedy we can NOT tolerate any longer in what used to be a civilized country. We must do whatever it takes to bring sanity, accountability, transparency and most of all the real rule of LAW back to our country.

once people are allowed to imitate a law officer. Whether it be police, ice, immigration, FBI, border patrol, or whatever then we enter a society similar to that of Mexico, where the drug cartel impersonate police officers only to do their dirty work and commit homicides, etc. Any form of police needs body cameras, need to identify themselves, and no facial mask mask are for those who rob a bank not for law enforcement. When they sign up for their job, they know what they're getting into. So there's no reason to pull the lame excuse that they may face retribution or their family.. Those are what you see in Third World countries and should not exist in a totally democratic USA. Sincerely, Philip Walker.

I support the driving idea of this proposal, but am concerned it will not be enforceable. What ICE is doing to America's residents and citizens is cruel, and impersonating agents is morally bankrupt. But the proposal is focused on curbing irresponsible, racist behavior, which is being capitalized upon. Companies (and individuals, see Etsy fake TSA officer badges) will make things people will buy. As much as I want to believe we can curb behavior by limiting access to resources for that behavior, there are too many ways people can buy these items to be effectively addressed by our county resources. It's a worthy, important intention, but not realistic.

Hiding behind a mask--is a "bad guy" thing. I understand why ICE agents fear being identified--fear of those that will do them and their families harm. So there is that. Masks can be seen as a protective device, we were all wearing them during Covid-19. But masks historically have been used by the KKK, bank robbers, and many of those that attacked our Government Jan 6th. Typical law enforcement officers (in the USA) do not wear a mask during the course of their jobs which are just as dangerous as the ICE agents' "jobs". ICE agents are supposedly our "tough enforcers". They knew this when they signed up for their job. They should not need to "hide" behind a mask if they are following orders from their "leader". They wear masks to be scary and unidentifiable, thus less accountable for their actions. Bad actors are always in the mix- real and fake ones. This mess is on their "leader" -the real bad guy who wears a presidential mask. If the right actions are being taken, no mask is necessary.

When I was in college, another student received citations for impersonating a police officer because he had a mustang painted like a Decepticon from Transformers, something that was clearly not a police car and which did no harm. Companies that sell counterfeit ICE gear are much more convincing and facilitate people engaging in illegal and dangerous behavior. Pretend guns have orange tips. Pretend ICE should be as easily identifiable or even inaccessible to mitigate harm to our community.

Laws (against impersonating an officer) seemingly disappeared? Are all the people wearing FBI hats really FBI? Unidentified Secret Police poison other countries; it shouldn't happen there, or here! Americans want freedom and democracy!

It's bad enough that ICE personnel seem disinterested in human rights and professionalism. if we can't tell who is real, and who is fake, how do we know when to defend ourselves? Or should we just let phonies abduct our family and friends for rape, extortion, or racist sadism?...Because we don't know who they are! Do we still remember lynching from our history classes?

We should be making efforts to ELIMINATE RACISM, and other kinds of bigotry from our police nationwide and worldwide. What kind of world do we want to live in?

What's the difference between arrests and kidnappings? It might seem like a rhetorical question, but in San Diego County it's become an actual question that demands serious contemplation.

An arrest is when someone duly authorized by the people uses *the minimum* required violence to *temporarily* pause (arrest) someone's right to liberty and autonomy. To be a legal arrest not only must the person be duly authorized, but the manner in which the arrest is done must also be duly authorized by the people. Arrests must be clear, traceable, and ultimately accountable to the people- from whom all political authority is derived.

If men wearing ski-masks jump out of a van, grab someone, and whisk them away to an undisclosed location... that's not an arrest, that's a kidnapping. There is a REAL risk that a brave bystander might use lethal force to stop the kidnappers. If the County doesn't want random citizens shooting these kidnappers, they should arrest the kidnappers themselves.

Myself and my family are completely against preventing enforcement officers from any laws forcing them to show their faces to cameras and criminals. They have the RIGHT to protect theirs and their families safety and privacy from criminals who retaliate against their families. We are also AGAINST taking away the publics RIGTH to wear clothing purchased at surplus stores. Is your next step to prevent citizens from wearing red, white and blue, or a MAGA hat?

Not only do I support this measure but I believe, based on having had a brother and father in police enforcement and an uncle in the FBI, that law agents must disclose who they are if asked. This is not happening with the current administration, thus welcoming if not encouraging imposters. If law enforcers do not follow the law is it any wonder criminals dare to impersonate them freely?

Stop with your liberal fear-mongering, anti-ICE / law enforcement nonsense.

The Biden-Harris-Mayorkas administration was an ABYSMAL FAILURE, that opened the border, tied the hands of USBP, and let in untold millions of desperately impoverished, diseased, freeloaders, and criminals, so President Trump is cleaning up that mess.

We're a country of laws, and entitled to protect our sovereignty, just like Mexico and beyond are entitled to do.

We also cannot continue to be the worlds' welfare agency and country-of-destiny for other nations' desperately impoverished without suffering consequences, and we've suffered enough.

You know as well as I and many others do, liberals want to DOX our fine men and women and threaten them and their families, "guilting" them to stop enforcing our immigration laws and policies.

Grow up and accept a MAJORITY of Americans voted for this.

Enough is enough.

You claim to represent San Diegans for however you refuse to acknowledge the obstruction of the rule of law that the policies of previous administrations, the State of California, the county and city of San Diego do nothing serve the legal residents and immigrants of this country and as a result when people like ICE try to do the job that the federal government is tasked with that the people elected this administration to carry out these policies and people doxxing ICE and HSI and CBP agents put their families at real risk necessitating a real fear for their own safety and I am more concerned with that than anything else. If people feel empowered and emboldened to attack those who uphold the rule of law then our society has truly broken down.

There is a rule of law in this country that the Trump Admin chooses to ignore.

Law enforcement are required to identify themselves. If they refuse, then citizens should be able to defend themselves and treat the individuals as kidnappers. Local police should be able to treat the incidents as kidnappings. I'm sorry if I don't take someone's word for it that they are federal law enforcement if they refuse to provide their names and badge numbers.

How many people are being kidnapped by imposters? They already can't find people disappeared to facilities. It's

The chaotic and disruptive operations of ICE agents has already put our neighborhoods and communities in a sense of perpetual fear and panic. Halloween is supposed to be a time for people of all ages to express themselves and have fun. Allowing companies to create costumes that have marginal differences from real ICE operator uniforms is despicable and only serves to fearmonger and line the pockets of costume companies profiting off of fear.

This is a great idea. ICE and any and all police, National Guard and military should be unmasked and be ready to present identification with their name, agency and badge number. If they detain someone, they should also be required to have a legitimate warrant signed by a judge and not just be stopping to pick up whoever they want wherever they want based on their whim, the color of the person's skin or the location. ICE impersonators commit crimes. So do fraudsters ripping off seniors. Or predatory landlords. Or City officials who enact an illegal, extortionate, and discriminatory tax. So do DUI drivers who get their license back 7 times. Or the many repeat offenders who were released early.

A mere two dozen impersonation incidents? Serious, but should we panic? Are there not laws against this?
