This is National Lead Poisoning Prevention Week (NLPPW). October is also Children's Health Month, a time to raise awareness about children's environmental health, including the dangers and potential health impacts of lead. Congratulations to San Diego County of moving from the 3rd worst County in the US in lead emissions from general aviation aircraft. You can hang your heads high by overtaking Los Angeles County as you have finally reached the 3 tons of lead per year mark. You also have accomplished this without posting required Prop 65 signs around all the airports that you own. Montgomery-Gibbs Executive airport, though not owned by you, is in the County and is now the airport having the most amount of lead emissions in the nation. While you spend your time and resources on TJ sewage, there is a greater amount of sewage raining down on all your constituents from these planes. Both are horrible and both will help to taint the "Finest City" image that you cultivate. Happy NLPPW!

Free speech endowed to us by our creator.
Guaranteed by the Constitution.
Not granted by government.

If a person believes Free Speech is only for him- or herself but not for political opponents. That person is a Liberal.

If the truth could NOT change a person's belief. That person is a Fundamentalist.

If a person believes the government should punish those with opposing views. That person is a Totalitarian.

If a person believes political opponents should be punished with violence or death. That person is a Terrorist.

If a person doesn't believe in free speech for everybody and freedom for everyone, then that person is not acting

as an American.

Pertaining to the "The Due Process and Safety Ordinance" my comments are as follows: Establish this ordinance; stop allowing them the bad guys into our city; and free up my tax dollars for more honorable causes. Anything would be more honorable than those bad guys but how bout libraries, school lunches, keeping parks open, food for the hungry, clothes for the naked? Save my city from becoming a gulag. The egregious raids on my city by ICE continue without guardrails. I now spend much of my waking moments supporting entire families whose parent or parents have been kidnapped by masked people. There is no honor in what is occurring in our city of San Diego. The masked people are in power now, given permission to attack and pillage people of color. San Diego is no longer America's Finest City. It is bowing to forces that emanate from a government lead by people whose principles I no longer recognize and with which I cannot and will not agree.
