While voting and democracy is a good thing, there are too many abuses. Abraham Lincoln advocated for a government by, of, and for the people. We are doing well of the 'of' part, but too many voters feel or are manipulated by misinformation or excluded from the process. Things like putting the voter ID on the outside of mailings to specifically identify the ballots fosters distrust in the system.

Glad the bidding will be competitive.

I did not see, but hope that, there will be a prohibition on the use of the voter ID or registration number on the outside of any ROV mailing.
