It is a great thing that San Pasqual Fire is getting 4 firefighters instead of just 2.

With all of the dangers of battery energy storage (BESS) and EV’s in high risk zones that the County and State have not been able to control adequately, I am surprised that any station in that area would have only 2 firefighters.

I am wondering, though, why a modular building costs \$865,000, which is as much as regular construction. Also why the firefighters need separate bedrooms.
