Lakeside's River Park Conservancy supports the San Diego County Board of Supervisors resolution in favor of Proposition 4. Prop 4 is an important investment in natural resources, healthy waterways, and management practices to protect the communities that depend on them.

I am writing in support of Prop 4, which includes vital funding for farmland access - a major concern for San Diego growers. The bond also provides support for other high priority areas including farmworker housing, and climate smart ag, wildfire mitigation, drought and flood resilience.

Our state's farmers and ranchers not only produce food for the world - they also can contribute to a healthier and more sustainable environment for all, with the proper support. This proposition would provide them with the support they need to feed and protect the planet.
