Oh, bravo, San Diego County! Another shiny ordinance to “expand” CLERB’s oversight (sections 340, 340.9, 340.15)—because nothing screams “we care about the people” like piling on more bureaucracy to watch the Sheriff’s Department! *Sarcastic slow clap*. This isn’t about accountability; it’s a masterclass in dividing us. Pitting communities against law enforcement with endless investigations into every jail death—natural or not—only stokes frustration and mistrust. Who wins? Not you, the people, stuck with a fractured “American spirit” as neighbors turn on neighbors, suspicious of every deputy. No, the real winners are the NGOs, swooping in with their “reform” agendas, raking in grants while we’re left bickering. Just like ignoring voter fraud—go ahead, cheaters, have your fun with those mail-in ballots!—this ordinance lets the County pretend it’s fixing things while the people’s voice gets drowned out. Stay silent, folks, and watch this divisive oversight board chip away at our unity. Wake up, San Diego, or you’ll be the ones paying the price for this charade! #CLERB #DividedWeFall
