Batch No. 04

Distributed: September 29, 2025

Petition to Deny HarmonyGroveVillageSouthDevelopment

To the Honorable San Diego Board of Supervisors,

We, the undersigned residents and concerned citizens, respectfully submit this petition to express our strong opposition to the proposed Harmony Grove Village South development.

Reason for Opposition

Based on the feedback from numerous, nationally renowned **fire experts**, we believe that Harmony Grove Village South development poses a significant threat to the safety and well-being of our communities. Specifically, we are deeply concerned about the following:

- **Excessive Density in a Very High Fire Severity Zone:** The addition of 453 homes will create an unacceptably high density of residents in an area with a long (and recent) history of devastating wildfires with limited evacuation capacity.
 - **Inadequate Egress Points:** We question the county's curious decision to waive fire code standards requiring a secondary exit on a dead end road. The lack of at least two designated egress points presents a grave danger during wildfire emergencies.
 - **Deadly Evacuation Conditions:** In the event of a wildfire, the experts have warned that, if built out, the immediate community will have more than 3500 vehicles evacuating, which will take **over 7** hours on the limited two-lane roads; the fire is estimated to arrive within an hour.
- We believe this development jeopardizes the thousands of lives and the safety
- of Harmony Grove, Eden Valley, Hidden Hills, Citracado Hills and Elfin Forest communities who have relied on these limited evacuation routes for years.

Our Request

We are more than overdue for a devastating wildfire which have come approximately every 7 to 10 years in this community. We ask that the Board of Supervisors consider the bad decision-making that lead to deaths and entrapment in Northern California and LA County fires. **We urge you to deny the Harmony Grove Village South development.** We ask that our government representatives prioritize the safety and welfare of their constituents and carefully consider the potentially devastating consequences of approving this project.

Subject: [External] Harmony Grove South Opposition
Date: Sunday, September 28, 2025 6:54:43 PM

Dear Members of the San Diego County Board of Supervisors,

I am writing to you on behalf of the San Pasqual Valley Preservation Alliance, an Escondido-based 501(c)3, to urge you to reject the proposed Harmony Grove Village South project. This development epitomizes urban sprawl and threatens to undermine the County's efforts on its Climate Action Plan and commitment to limiting sprawl and encouraging infill development.

The project lacks adequate transit access and will significantly increase the county's Vehicle Miles Traveled (VMT), exceeding the County-wide average. It will also generate more greenhouse gas (GHG) emissions than it claims to offset. Furthermore, the potential for gridlock during a wildfire poses a serious risk to nearby communities. Independent experts have demonstrated that inadequate secondary egress creates a severe entrapment risk, which is unacceptable given recent evacuation catastrophes like those in Palisades and Altadena.

Increased VMT and longer driving distances will lead to greater carbon emissions, exacerbate sprawl, and further contribute to climate change. The surrounding area is primarily rural, recognized for its wildlife, open space reserves, and natural beauty. We must protect such areas from irresponsible developments that prioritize profit over public safety and ecological integrity.

Additionally, the site is listed as a Priority Conservation Area in the Multiple Species Conservation Area (MSCP) North draft. It is directly adjacent to lands supporting the state and federally endangered Least Bell's Vireo, the federally threatened Coastal California Gnatcatcher, and the endangered Southwestern Willow Flycatcher. It is also near the Escondido Creek, which supports the proposed federally threatened Southwestern Pond Turtle.

Locating this project within the wildland urban interface (WUI) contradicts extensive research showing that these communities suffer the most losses during wildfire events. This community has already experienced the devastating effects of wildfires numerous times over the years. You do not need a crystal ball to foresee the likelihood and threat to lives and property from a large-scale fire in the area; you need only reflect on the Cocos Fire.

We strongly urge you to consider the long-term fire danger and environmental implications of approving the Harmony Grove Village South project.

Sincerely,
NeySa L Ely, Founder/CEO
San Pasqual Valley Preservation Alliance

DON'T BURN US!

Petition to Deny Harmony Grove Village South Development

To the Honorable San Diego Board of Supervisors,

We, the undersigned residents and concerned citizens, respectfully submit this petition to express our strong opposition to the proposed Harmony Grove Village South development.

Reason for Opposition

Based on the feedback from numerous, nationally renowned *fire experts*, we believe that Harmony Grove Village South development poses a significant threat to the safety and well-being of our communities. Specifically, we are deeply concerned about the following:

- *Excessive Density in a Very High Fire Severity Zone:* The addition of 453 homes will create an unacceptably high density of residents in an area with a long (and recent) history of devastating wildfires with limited evacuation capacity.
- *Inadequate Egress Points:* We question the county's curious decision to waive fire code standards requiring a secondary exit on a dead end road. The lack of at least two designated egress points presents a grave danger during wildfire emergencies.
- *Deadly Evacuation Conditions:* In the event of a wildfire, the experts have warned that, if built out, the immediate community will have more than 3500 vehicles evacuating, which will take *over 7 hours* on the limited two-lane roads; the fire is estimated to arrive within an hour.
- We believe this development jeopardizes the thousands of lives and the safety of Harmony Grove, Eden Valley, Hidden Hills, Citracado Hills and Elfin Forest communities who have relied on these limited evacuation routes for years.

Our Request

We are more than overdue for a devastating wildfire which have come approximately every 7 to 10 years in this community. We ask that the Board of Supervisors consider the bad decision-making that lead to deaths and entrapment in Northern California and LA County fires. **We urge you to deny the Harmony Grove Village South development.** We ask that our government representatives prioritize the safety and welfare of their constituents and carefully consider the potentially devastating consequences of approving this project.

- *Excessive Density in a Very High Fire Severity Zone:* The addition of 453 homes will create an unacceptably high density of residents in an area with a long (and recent) history of devastating wildfires with limited evacuation capacity.
- *Inadequate Egress Points:* We question the county's curious decision to waive fire code standards requiring a secondary exit on a dead end road. The lack of at least two designated egress points presents a grave danger during wildfire emergencies.
- *Deadly Evacuation Conditions:* In the event of a wildfire, the experts have warned that, if built out, the immediate community will have more than 3500 vehicles evacuating, which will take *over 7* hours on the limited two-lane roads; the fire is estimated to arrive within an hour.
- We believe this development jeopardizes the thousands of lives and the safety of Harmony Grove, Eden Valley, Hidden Hills, Citracado Hills and Elfin Forest communities who have relied on these limited evacuation routes for years.

Our Request

We are more than overdue for a devastating wildfire which have come approximately every 7 to 10 years in this community. We ask that the Board of Supervisors consider the bad decision-making that lead to deaths and entrapment in Northern California and LA County fires. **We urge you to deny the Harmony Grove Village South development.** We ask that our government representatives prioritize the safety and welfare of their constituents and carefully consider the potentially devastating consequences of approving this project.

Petition to Deny Harmony Grove Village South Development

To the Honorable San Diego Board of Supervisors,

We, the undersigned residents and concerned citizens, respectfully submit this petition to express our strong opposition to the proposed Harmony Grove Village South development.

Reason for Opposition

Based on the feedback from numerous, nationally renowned *fire experts*, we believe that Harmony Grove Village South development poses a significant threat to the safety and well-being of our communities. Specifically, we are deeply concerned about the following:

- *Excessive Density in a Very High Fire Severity Zone:* The addition of 453 homes will create an unacceptably high density of residents in an area with a long (and recent) history of devastating wildfires with limited evacuation capacity.
- *Inadequate Egress Points:* We question the county's curious decision to waive fire code standards requiring a secondary exit on a dead end road. The lack of at least two designated egress points presents a grave danger during wildfire emergencies.

We, the undersigned residents and concerned citizens, respectfully submit this petition to express our strong opposition to the proposed Harmony Grove Village South development.

Reason for Opposition

Based on the feedback from numerous, nationally renowned *fire experts*, we believe that Harmony Grove Village South development poses a significant threat to the safety and well-being of our communities. Specifically, we are deeply concerned about the following:

- *Excessive Density in a Very High Fire Severity Zone:* The addition of 453 homes will create an unacceptably high density of residents in an area with a long (and recent) history of devastating wildfires with limited evacuation capacity.
- *Inadequate Egress Points:* We question the county's curious decision to waive fire code standards requiring a secondary exit on a dead end road. The lack of at least two designated egress points presents a grave danger during wildfire emergencies.
- *Deadly Evacuation Conditions:* In the event of a wildfire, the experts have warned that, if built out, the immediate community will have more than 3500 vehicles evacuating, which will take *over 7 hours* on the limited two-lane roads; the fire is estimated to arrive within an hour.
- We believe this development jeopardizes the thousands of lives and the safety of Harmony Grove, Eden Valley, Hidden Hills, Citracado Hills and Elfin Forest communities who have relied on these limited evacuation routes for years.

Our Request

We are more than overdue for a devastating wildfire which have come approximately every 7 to 10 years in this community. We ask that the Board of Supervisors consider the bad decision-making that lead to deaths and entrapment in Northern California and LA County fires. **We urge you to deny the Harmony Grove Village South development.** We ask that our government representatives prioritize the safety and welfare of their constituents and carefully consider the potentially devastating consequences of approving this project.

DON'T BURN US!

Petition to Deny Harmony Grove Village South Development

To the Honorable San Diego Board of Supervisors,

We, the undersigned residents and concerned citizens, respectfully submit this petition to express our strong opposition to the proposed Harmony Grove Village South development.

Reason for Opposition

Based on the feedback from numerous, nationally renowned *fire experts*, we believe that Harmony Grove Village South development poses a significant threat to the safety and well-being of our communities. Specifically, we are deeply concerned about the following:

- *Excessive Density in a Very High Fire Severity Zone:* The addition of 453 homes will create an unacceptably high density of residents in an area with a long (and recent) history of devastating wildfires with limited evacuation capacity.
- *Inadequate Egress Points:* We question the county's curious decision to waive fire code standards requiring a secondary exit on a dead end road. The lack of at least two designated egress points presents a grave danger during wildfire emergencies.
- *Deadly Evacuation Conditions:* In the event of a wildfire, the experts have warned that, if built out, the immediate community will have more than 3500 vehicles evacuating, which will take *over 7 hours* on the limited two-lane roads; the fire is estimated to arrive within an hour.
- We believe this development jeopardizes the thousands of lives and the safety of Harmony Grove, Eden Valley, Hidden Hills, Citracado Hills and Elfin Forest communities who have relied on these limited evacuation routes for years.

Our Request

We are more than overdue for a devastating wildfire which have come approximately every 7 to 10 years in this community. We ask that the Board of Supervisors consider the bad decision-making that lead to deaths and entrapment in Northern California and LA County fires. **We urge you to deny the Harmony Grove Village South development.** We ask that our government representatives prioritize the safety and welfare of their constituents and carefully consider the potentially devastating consequences of approving this project.

- *Excessive Density in a Very High Fire Severity Zone:* The addition of 453 homes will create an unacceptably high density of residents in an area with a long (and recent) history of devastating wildfires with limited evacuation capacity.
- *Inadequate Egress Points:* We question the county's curious decision to waive fire code standards requiring a secondary exit on a dead end road. The lack of at least two designated egress points presents a grave danger during wildfire emergencies.
- *Deadly Evacuation Conditions:* In the event of a wildfire, the experts have warned that, if built out, the immediate community will have more than 3500 vehicles evacuating, which will take *over 7 hours* on the limited two-lane roads; the fire is estimated to arrive within an hour.
- We believe this development jeopardizes the thousands of lives and the safety of Harmony Grove, Eden Valley, Hidden Hills, Citracado Hills and Elfin Forest communities who have relied on these limited evacuation routes for years.

Our Request

We are more than overdue for a devastating wildfire which have come approximately every 7 to 10 years in this community. We ask that the Board of Supervisors consider the bad decision-making that lead to deaths and entrapment in Northern California and LA County fires. **We urge you to deny the Harmony Grove Village South development.** We ask that our government representatives prioritize the safety and welfare of their constituents and carefully consider the potentially devastating consequences of approving this project.

HARMONY GROVE RURAL

DON'T BURN US!

Petition to Deny Harmony Grove Village South Development

To the Honorable San Diego Board of Supervisors,

We, the undersigned residents and concerned citizens, respectfully submit this petition to express our strong opposition to the proposed Harmony Grove Village South development.

Reason for Opposition

Based on the feedback from numerous, nationally renowned *fire experts*, we believe that Harmony Grove Village South development poses a significant threat to the safety and well-being of our communities. Specifically, we are deeply concerned about the following:

- *Excessive Density in a Very High Fire Severity Zone:* The addition of 453 homes will create an unacceptably high density of residents in an area with a long (and recent) history of devastating wildfires with limited evacuation capacity.
- *Inadequate Egress Points:* We question the county's curious decision to waive fire code standards requiring a secondary exit on a dead end road. The lack of at least two designated egress points presents a grave danger during wildfire emergencies.
- *Deadly Evacuation Conditions:* In the event of a wildfire, the experts have warned that, if built out, the immediate community will have more than 3500 vehicles evacuating, which will take *over 7 hours* on the limited two-lane roads; the fire is estimated to arrive within an hour.
- We believe this development jeopardizes the thousands of lives and the safety of Harmony Grove, Eden Valley, Hidden Hills, Citracado Hills and Elfin Forest communities who have relied on these limited evacuation routes for years.
