The data on which you base
policy is BAD DATA. The PCR
tests are EUA only. PCR are non-

The idea that the county of San Diego is going to extend the shutdown/emergency into June, even against advisement of the CDC, is laughable. Those in favor of continuing the lockdowns make it very clear who wants to be voted out or even recalled. You are the ones responsible for the folding small businesses, never to reopen again. You are the ones responsible for the teen suicides. You are not representing your constituents by continuing to play along with this incredible farce.

Hello, I strongly urge you to
drop any mandate for K-12 mask
wearing in schools. Children
need to breathe freely. This will
allow them to learn more

that children spread the virus

unmasked. Many other states
have proven this to be true.
Please unmask our children.

We do not want masks. The kids
should be able to go to school
mask free. The virus has taken
enough of our lives away. Kids
should be able to learn and grow
without the hindrance of masks

The county PH order needs to be updated to remove mandatory masking, including children. Our family strongly opposes any mask mandates for children including public spaces, summer camps, and K-12 school settings. It has been proven that children are at a lower risk from Covid than they are during a normal flu season. Now that every adult has had the opportunity to become vaccinated, our children are protected from those around them.</p>	<p>Oppose</p>	<p>5/17/2021 16:26</p>

The amount of social and psychological harm we are inflicting by continuing to force masks onto the least susceptible population is sickening. Limited communication & social development, lack of focus, increased anxiety, fear of others, and bullying are just some of the negative side effects we are seeing already. Parent should have the right to say what is best for their own children!</p>		<p>5/17/2021 16:17</p>

Remove all mask mandates
immediately and return our kids
to school without limitations.
They have suffered enough!

UNMASK our children NOW. It
needs to be individual/parent
choice. Our kids have suffered
enough and research shows they
are NOT spreaders. Teachers
and adults can get the shot if
they wont and are protected so
making everyone else still wear
a mask is pointless...why get the
shot if you still want others to
wear a mask? YOU protect
YOURSELF when you get the
shot which is the purpose of a
vaccine so why is what others
choose to do still your business?
It isnt and it doesn't make sense.
Stop now!!

ADDRESS THE COVID-19 PANDEMIC Kandice Judson kandice.nikole@gmail.com Please assume local control of the mandates and remove all covid related restrictions, specifically mask mandates. States that have removed their mandates are seeing plummeting case and death counts. Texas removed their mandate two months ago and reported zero deaths. When adjusted for age (because covid is worse for the elderly) California ranks terribly when it comes to cases and deaths. It is well past time to move on from this. 5/17/2021 15:28

1. There is not and never has
been an emergency. The
numbers don't support it.
2. You're perpetuating the
notion of an emergency merely
to get CARES Act and similar
money, which is not only
fraudulent but is a felony and
punishable with a prison
sentence.
CA Health and Safety code
101080 states that a local health
emergency can only be called
where there is an "IMMINENT
AND PROXIMATE THREAT of the
INTRODUCTION of a contagious
disease" and this local
health emergency EXPIRES
AFTER 7 DAYS.

When is the county going to
follow the science and remove
the mask mandate? Other states
are following the science and
have removed their mask
mandates. Yet San Diego once
again is not following the
science and continues to expect
masks to be worn everywhere.
