Hi Supervisors,

\$32 Mil is a lot of money even for a loan. I think we should have an itemized list of what the money is going for, to help us better understand how it will be recovered in the cost of services to be charged to us.

Another issue of concern is where these facilities will be located – at the main campus, which is not particularly central to the County if there is a crisis needing urgent access; or would it be better to spread out facilities in several communities.

The concept sounds interesting, but we should have more detail before committing so much money.

Regards,

Paul Henkin
