Not sure about some of the items, but I think tiny homes, especially tiny home communities, have to be considered as part of the solution as stand alone homes. Needs to be looked at more closely.

- 1) We do not have a housing crisis, we have an affordable housing crisis. If you have a million dollars there are plenty of great homes to buy. The focus should be on affordable housing.
- 2) There is definitely a climate crisis and San Diego County does not even have a legal climate action plan.

3) Building sprawl housing developments far from developed areas will create substantial vehicle miles and corresponding greenhouse gas. Sierra Club opposed such development.
