No more funding on problems you created. Misinformation starts with you all.. YOU ARE MISS INFORMING the public on the facts so you can manipulate and murder these people. Vaccines CAUSE diseases and viruses. There's HIV and herpes in covid vaccines.

I want to point out how silly the equity statement is. It says "Sexually Transmitted Diseases (STDs) disproportionately impact communities of color (particularly Black/African American residents), youth, and gay, bisexual, and other men who have sex with men." In other words, without mentioning a bunch of races or classes, it could simply have said "men who have sex with men." STD's don't discriminate. Why should we? You got it or you don't.
