Alliance San Diego is in full support of this proposal. For too long, our community members in Imperial Beach have been subjected to pollution that impacts their health and ability to participate in everyday activities. This violates their human right to a standard of living adequate for the health and well-being of themselves and their families. We support county advocacy for additional resources and funding to fix this public health crisis.

I guess begging the Feds for more money when they're in a cash crunch couldn't hurt. Just don't expect it very soon.
