Sounds good. Since most large wildfires seem to come from Unincorporated areas of the County, it is would be a good thing to increase their property tax allocation. I also wonder if other areas have been overallocated, since the agenda mentions a 12% allocation while ethe average is 6%. To me, it makes sense to stop large wildfires at the source, with better equipment and resources, which is hard to do with only a 2% allocation of property tax revenues.
