The County wants to charge us \$450,000 to design and build a 2100 square foot half basketball court at Jess Martin Park. There will be no big bad impacts on rare or endangered species or their habitat, there are no hazardous materials near the project site, and there are no significant cumulative conditions.

2023 Cost to build an outdoor basketball court: Half-court — Residential, 30' x 30', \$3,600 – \$14,400. Specifically, I see a 30 x 30 Half court advertised on Google for \$3,095 from ModuTile. Fixr.com says Installing a half basketball court ranges between \$15,500 and \$40,000.

The Board letter says there is nothing special about this. Then what accounts for the outrageous cost? Show me the contract PLEASE.
