Hello, my name is Alexa , community worker at Casa Familiar. I am writing in support of Agenda Item #26. We ask that the Sherriff

STOP transferring individuals to ICE and notifying ICE when individuals are released from jail (ICE transfers and notifications).

STOP allowing DHS/ICE access to county property, including parking lots.

STOP participating on joint task forces with DHS/ICE agencies.

STOP sharing information, data and resources with DHS/ICE.

Law enforcement is a different job from immigration. By acting as surrogates of immigration officials, our officers severely risk compromising their relationships with our communities, their trust among our people, and the people's confidence in being able to seek help when needed from public safety officers. We need more transparency on how the San Diego Sheriffs have coordinated with ICE. And I urge the County to call upon the Sheriff to immediately stop ICE transfers and notifications.

If the San Diego Sheriff's Department continues transferring community members to ICE, the distrust in law enforcement and local government will increase. When community members fear that themselves or a loved one will get deported, they'll often be too afraid to report crime and too afraid use county services, e.g. county clinics for COVID-19 and flu vaccines.

I'm writing on behalf of Malaya Movement San Diego. SDSD's collusion with DHS/ICE has resulted in the deportation and detention of 98 community members this year alone and the separation of families in our region. SDSD is participating in joint task forces, sharing information, and utilizing county resources to facilitate transfers without transparency and accountability.

I'm Lea with ACLU-SDIC and I believe that families should not have to fear deportation during an encounter with law enforcement. It's alarming to know that county resources have been used to deport and place in detention 98 of our community members in this year alone. The effect that this has had on the families and neighborhoods of San Diego can not be measured. The collaboration between SDSD and DHS/ICE must end; we have to do better in protecting our immigrants.

The Sheriff Department's collusion with DHS/Ice instills minority community fear and mistrust in local law enforcement. Community members, especially those with undocumented family members, are less likely to call law enforcement to report crimes. STOP our Sherriff Dept. from protecting criminals that results from efforts to vilify and persecute the undocumented and their families. Leave enforcement of Federal immigration laws to DHS/ICE and focus our county resources on our community needs.

Hello, my name is Max and I'm from District 3. I'm writing this evening to demand the end of the San Diego Sheriffs' Department's collaboration with ICE in the forced deportation of my neighbors here in San Diego. In my community we're deeply aware of how the department's activities target our friends, families, and loved ones- and are outraged that the department does not act in the peoples' names. Public officials are meant to advocate for the people, not tear their communities apart.

As an Escondido resident, I have witnessed the damage deportations do to my community. In Escondido, for years, the systematic targeting of long-time community members where police and ICE tear apart children from their parents. I also see The damage that the collaboration of the police with DHS does to the community's perception. Where communities who need help and protection from land enforcement are afraid to call, leading to abuse and victimization.

The biggest result of collusion with ICE is separated families that undermine and weaken our communities. Whether it be families struggling through the trauma or separation or increasing distrust between the community and public safety officials, this collusion is a net negative. One of the absolute best parts of living in San Diego is our diversity. We are a stronger city together when people are secure, and aren't afraid of being separated from their loved ones and detained/deported. The Sheriff's policy of transferring individuals to ICE and notifying ICE of release dates results in double punishment and creates a separate justice system for immigrants. After so many lawsuits, so many abuses, and so much hateful rhetoric over these recent years, the fact is we have yet to see accountability. There is a reason the police/sheriffs are separate from ICE, as any collusion will impair the trust and collaboration between our communities and the law. It is counter productive to persecute people who would otherwise be more willing to come forward and report crimes. Our nation must keep the beacon of hope, freedom and opportunity held high, and not desecrate the very fundamental ideas that have allowed our country to prosper. It is past time for San Diego Sheriffs to join the many departments across the country who have realized the folly of this approach that makes victims afraid to report crimes, thus making our entire community less safe. Kelly Martinez claims we'll really have a new Sheriff in town -- not just a new version of former Sheriff Gore. Now is the time to put that to the test. Interim Sheriff Ray and incoming Sheriff Martinez have an opportunity to end the shameful practice of transferring immigrants to ICE for detention and deportation even when they're eligible for release. It is well past time to send the message that immigrants are welcome in San Diego. Ending this shameful practice is an essential first step.

SDSD's collusion with DHS/ICE has resulted in the deportation and detention of 98 community members this year alone and the separation of families in our region.

This weakens our communities and makes the most vulnerable among our city less safe by building mistrust and fear. SD's tax dollars fund SDPD for the purpose of keeping the SD community safe. Federal tax dollars fund ICE; the goals are not the same.

I am a SD resident from District 5. The San Diego Sheriff's office continued close cooperation with ICE is wrong and contrary to California's ideals on separation of local police and ICE activities. This collusion has resulted in multiple deportations and horrible separations of families. I support the Truth Act and urge the Board to insist the Sheriff cease using county resources to aid in this unfair practices and stop working on joint task forces and sharing information with ICE.

I'm a resident of D3 and urge the BoS to call upon the Sheriff to immediately stop ICE transfers and notifications.

I was a kid when my dad was deported as a result of this kind of collusion between police and immigration agents. Families and individuals are seriously and even permanently separated and harmed by these kinds of policies. Today's collusions between ICE and the Sherriff runs counter to the County's commitment to racial justice and equity.

As a medical student and one of San Diego's healthcare workers, I have had many interactions with residents of our communities who feel unsafe due to SDSD's collusion with ICE. This leads to mistrust of all institutions including healthcare, which leads to poorer health. Families separated by ICE undergo trauma that is lifelong. Detainees in ICE detention suffer inhumane health conditions including COVID exposure. Passing the Truth Act is a step towards serving all San Diegans.

The Sheriff needs to stop transferring individuals to ICE and notifying ICE when individuals are released from jail.

People who have been released, including immigrants, should be released to their families and communities so they can start rebuilding their lives. SDSD's collusion with ICE undermines community safety and inflicts devastating harm on immigrants and their families in San Diego. The time is now to join the various counties in California that have already stopped all ICE transfers.

I am a nonprofit immigration lawyer who lives and works in District 4, and I value San Diego as a welcoming, diverse, and truly international city. Our Sheriff should promote policies that are consistent with our values, but I have seen too many San Diegans transferred to ICE and locked in immigration jails based not on criminal convictions or charges but solely on accusations. This Board should guarantee that our Sheriff defends San Diego values and protects ALL San Diego families.

Ice transfers and notifications not only affect those detainees that are deemed eligible for release it also has great impact. On there US citizen children, spouse and family members. It creates additional financial burden on family which in many case forced the family to seek county resources just to meet every day life needs. Help us restore community trust in law enforcement. Zero notifications Zero transfers. Thank you

With one hand the county works on being a welcoming region and building trust with migrant communities and with the other the county (Sheriff) is voluntarily colluding w/ICE to further detain migrants who are eligible for release and not a danger to the public. The sheriff and CDCR releases paroled individuals back into the community everyday. Its only with migrants that the Sheriff notifies and transfers to ICE. This is not building trust. As a lifelong San Diegan, I want this practice to END.

The Sheriff needs to stop colluding with ICE. As an immigration attorney, I have seen the impact transfers and notifications to ICE have caused our community members. They require immigrants to endure double punishment for their crimes, cause families to be separated from their loved ones and creates extreme emotional and financial hardship within our communities. Enough is enough. The law does not require collusion, so why does the sheriff choose to continue harming our communities?

Alliance San Diego urges the Sheriff to stop all ICE transfers and notifications. This result in the deportation of community members, and the separation of families in our region. Transfers and notifications also result in double punishment, and create a dual justice system where individuals are further criminalized based solely on where they were born. This runs counter to the County's values of inclusion and equity. Therefore, we urge the Sheriff to stop this ICE transfers and notifications.

When local police and sheriffs aid DHS/ICE agencies with the deportation of our community members, they further undermine trust and confidence in law enforcement, making our communities and families in San Diego County feel less safe. People are less likely to report crime when victims and witnesses fear they may be deported when they come into contact with local law enforcement.

The San Diego County Sheriff's Department has lost the trust of our community! Their record of unusually frequent jail-inmate deaths compared to other counties is stunning and reprehensible. Their collusion with ICE is as despicable, leading to family separations and deportations of our most vulnerable community members. This collaboration is counterproductive and is the antithesis of a safe and vital community. It's time for the Sheriff's Department to end it's collaboration with ICE NOW!

We must abolish ICE, but first we must stop the collaboration of police and ICE. Public safety is dependent on community trust. The Sheriff's current entanglement with DHS agencies (ICE transfers and notifications, participating in joint task forces with DHS agencies, allowing ICE access to county facilities and parking lots, and sharing and receiving resources from DHS) erodes community trust and makes all of us less safe. We urge the Sheriff to end these practices immediately.

Change Begins With ME stood in front of this body last year and the Truth Forum before with the same complaints. Whenever we shine a light on SDSD's practices, we discover the many ways the department continues to manipulate the essence of SB 54. It has not mattered that the figurehead has changed, SDSD still cooperates with ICE reinforcing a culture of fear - forcing immigrants into the shadows and instigating a culture in which public safety is used to justify racist and punitive policing.
