Critical to addressing the experience of child poverty in our region is tackling our local child care crisis. Please consider making this a priority in the FY24 budget, by: supporting the new Office of Child and Family Strengthening to implement and evaluate the Child Care Blueprint; adding meaningful performance measures

and funded programs for children and youth mental and behavioral health services; and exploring new, sustainable investments to address the child care funding delta.

Please fund and develop Butterfield Trails Ranch as a park in Valley Center. With the recent increase in population, the community desperately needs such a park for recreational activities!

I urge you to please allocate funding to fund the formal evaluation of the San Diego County Child Care Blueprint. This is a pivotal time for San Diego County to move forward on its commitment to equity and disrupt the cycle of poverty by truly funding and supporting the implementation of the San Diego County Child Care Blueprint. Thank you for your time and consideration.

Please support the acquisition of Butterfield Part for Valley Center. It is centrally located for easy access and would be great for an intergenerational program.

I would like to see Conty of San Diego employees earn a living wage to be able to continue living in our great city. As an employee I do not make a liveable wage to sustain housing and as a senior citizen I still need 2 jobs to make ends meet. Please raise wages and be fair, we work extremely hard and are often under staffed due to high turn over in positions because low wages and amount of work we provide. Please support your staff.

Thank you, Nick Macchione, for leaving a mess behind at HHSA and wasting our tax payers money on useless programs that have not helped the homeless, the drug addicts, or the scam housing program. UCSD Health, watch out, and do not be surprised if you are receiving services at UCSD Health under the leadership of Nick that you will most likely die due to a long wait for care.

I just read the grand jury report on the Public Administrator's Office. WOW, how the county is virtue signaling the private businesses of mistreating employees and wage theft, but it is the county that mistreats and abuses their employees. The director of AIS should be fired for the incompetence. Why is a department that deals with deceased individuals aligned with seniors? Thank you, Grand Jury, for conducting this investigation.

This council and this Mayor had a responsibility to prevent this but instead approved investors like Black Stone Group to come in and purchase over \$1 billion dollars of rental real estate for them to build and develop and begin to corner the market to raise rent up. The building and development didn't stop there! This council of representatives had a duty to prevent this from happening! After that initial investment the homeless population grew and now you want us to pay for your negligence?

I'm in much in favor of Public Administrator's Office the Medical Examiner Coroner Office. It would be less time to have someone bury.
Instead of months and ,months. Support Support Support.

I'm really impressed with the funding for homelessness and crisis management. These are very tangible steps the City is taking instead of just throwing housing developments out there. It shows that there has been reflection for equity and health, very excited to see what changes come to San Diego with this budget.

Audits should be performed on the homeless budget & spending to make sure the funds are going where most needed, no waste. Criminals with three strikes should stay locked up to keep the children & elderly safe. Thank you.

Thanks for including ADU fee waiver pilot program - very important for all on the county - people who want affordable housing, taking some pressure off costs, hopefully, in the long run!
And continue with housing measures for the homeless, a first step in achieving independence and better health, overall, including mental health! Keep up the coordination with other branches of government to approach our homelessness from many directions at once!
Thank you!

Please include funding for Butterfield Trails Ranch Park in Valley Center. This location is the most perfect setting for a much needed centrally located public park in this part of town. It is a great spot for walking, horseback riding and other relaxing outdoor activities for the community other than sports fields. It is centrally located and holds many beautiful traits representative of Valley Center that should be preserved. It is such a gem it would be a shame to pass on this.

Please include in the budget funds to convert the current leaded avgas tanks at all county airports that have more than one tank to readily available unleaded avgas that is FAA approved and all but a few piston-driven aircraft can immediately use. A quick check will tell you that the county General Aviation Airports owned by the county drop tons, yes tons, of poisonous airborne lead into the air. This change will help reduce the amount of lead dropped, that affect children the most.
