The Hospital Association of San Diego & Imperial Counties supports the direction of the Board to pursue alternatives to incarceration. The draft report identifies many critical needs, including the significant health and behavioral health needs of justice involved individuals. We thank Supervisor Lawson-Remer for her leadership, with the support of the Board, and look forward to seeing the final report.

I stand in support of needed changes and rehabilitative services needed for individuals touch by public safety but in need of treatment and alternatives to incarceration. We have enough data and examples of care that can

make difference and San Diego needs to continue and expand these efforts, especially in communities of color.

Community-Based Systems of Care-expand community health worker and peer support models fund resources through the creation of an ATI Initiative

Legal System Reform-increase diversion, improve training for law enforcement while reducing interactions with people with behavioral health needs; reduce pretrial detention and increase services

Funding-leverage criminal justice and public health funding streams to make the ATI vision a reality

Data and Research-expand data sharing and transparency

We thank Board of Supervisor and Vice Chair Terra Lawson Remer for bringing this item forward and we know that 2021 Chairwoman Nora Vargas and Vice Chair Lawson Remer brought this ATI resolution to advance justice reform and protect public safety with a collective understanding and commitment to addressing disparities in the current system.

I ask that the Board pass legislation requiring officers have probable cause to perform traffic stops, provide appropriate resources to expand support for those who will be diverted from jails, establish an ATI as a permanent oversight body to oversee implementation of the final, approved recommendations, and grant a specific budget to the ATI to monitor and evaluate how these recommendations are implemented.

On behalf of Jewish Family Service of San Diego, I am commenting in support of this item and to thank Supervisor Lawson-Remer for her leadership, with the support of the Board, for pursuing alternatives to incarceration. This report is an important first step in identifying gaps and needs in our community that will require ongoing investment. In particular, the best practices literature review of the SANDAG report lists several critical areas worthy of investment here in San Diego. Thank you.
