PATH supports this motion and the County’s continued leadership on prevention, and we offer our assistance with operationalizing the program. To be successful, the program must consider and tackle all of the inroads leading to homelessness, such as foster care, domestic violence, the justice system, historic racial and economic inequities, age and sexual orientation, among others. These are large and complicated issues, but we appreciate you taking the necessary steps to achieve true change.

Thank you for continuing to focus on preventing and ending homelessness in the County. I support this item and ask that the Board reconsider this program’s strategies and actions if the BoS approves Item 30 to align and avoid duplication of focus and efforts.
