Hi Supervisors,

You propose to spend \$737,000 of County funds to provide 4 deputies to the Grossmont schools to "help foster communication and awareness about safety with school administrators, students, parents, and other community members. It will also improve school attendance, and decrease the potential for violence, crime, drug use and gang activity on school campuses," probably simply because the Grossmont High School district asked.

How will this improve school attendance, decrease the potential for drug use, or foster communication about safety. If there is evidence or data supporting this, please provide it. In its absence, I think the whole thing is a waste.

Regards,

Paul Henkin
