Alliance San Diego would like to remind the County Supervisors, County CEO and County OES that the County has an obligation to adhere to state law, namely the California Values Act and that any activities related to this grant must not be in violation of state law. We know the Federal administration is trying to tie these funds (DHS EMPG and SHSP grants) to immigration enforcement. At the moment, the Federal Administration has been prohibited from doing so by a court injunction, but should anything change that requires those funds be tied to immigration enforcement, it is our expectation that the County and their subgrantees on the grants will refuse to do anything that puts them in violation of state law.

This county has and continues to experience a catastrophic event due to the continued presence of thousands of illegal immigrants residing in this county with the sense of entitlement extended by the Biden administration and the complicity by some on this board. You are complicit in the cause of this catastrophe.

Hypocritically, this board actually wants money to pretend to protect American citizens and legal residents against terrorism and other catastrophic events at the same time in agenda item #8 you want to interfere and prevent access to non-public areas of County

of San Diego facilities by law enforcement when enforcing federal laws for deportation. Which is necessary due to the current catastrophic event of thousands of illegal immigrants unlawfully in this county, in this country.

Hello, I'm Dee from San Diego County, opposing Item 1. This resolution authorizes SHSP and EMPG grant applications, including a 100% EMPG match waived under B-29. Staff claims no net fiscal impact, but it commits

existing taxpayer funds upfront without immediate Board details on use or equitable distribution across districts. Delayed award reporting reduces transparency, and federal ties may impose strings not aligned with local priorities like wildfires. This appears preemptive and lacks full public justification—potentially advancing external agendas over constituent needs. Reject the resolution; demand clearer oversight and evidence it serves San Diegans first. Thank you.

Interesting that the U.S. Department of Homeland Security provides funding to the State Office of Emergency Services and down to the entire San Diego region to support efforts related to terrorism and other catastrophic events including recovery capabilities for all hazards. Because if you look at some of the tactics ICE and BPS uses, you have the master funding efforts to stop the servant.

I also wonder if mitigating the inevitable food riots caused by the loss of SNAP benefits or medical insurance qualifies as an emergency.

Just a few ideas, while you accept the funds.
