I support Item 11 sponsored by Shane Harris the President of the People's Association of Justice Advocates and authored by Supervisor Desmond. AB 379 combats human trafficking and specifically supports children who are trafficked by putting their perpetrators behind bars by increasing criminal penalties they face. San Diego County Supervisors should pass this measure and send a clear message that our children are not for sale.

We need to stand for the protections of our youth population in our own region! This bill represents that and I think it would be shameful to vote against it!

I believe that our government has stop protecting our youth. And that too many young girls are being manipulated by men and women much older and in a sense forcing them to believe there isn't anything better to do for themselves than sell their body. Let's bring protection back for our babies

My wife and I fostered a 10 year old in 2023. While the placement didn't work out, we learned that these kids need protection. They are overexposed at a young age, learn good or bad things very quickly and can be easily taken advantage of. Adults need to do better at protecting children of all walks of life.

Legally, 17 yr olds are minors and any legislation that exempts legal protections for minors, is a hypocritical legislation, particularly when it involves exemptions from sexual exploitations. I strongly supports this legislation that covers and protects minors from victimization by sexual predators and abusers.

16 and 17 year-old are under age. There is absolutely no reason why they should not have been included in the original legislation so yes, I support it.

As a survivor of commercial sexual exploitation and sex trafficking I urge you to protect children and individuals

like myself. By supporting AB379 you send a clear message to perpetrators of harm that our children and those vulnerable are not for sale. You send a clear message to survivors that we are heard and supported.

Many state bills and state laws purposely provide special privileges under the cover of civil rights - for certain individuals and special groups - which infringe, impinge or eliminate rights of all other American citizens. These special privileges always negate the safety of all others. In this case minor children aged 16-17 years old are at risk. All children must be protected. Will Terra and Monica vote to protect children?

I worked at a children's advocacy center in child abuse prevention, where I saw the vital impact of legal measures that prioritize survivor support. AB 379 rightly recognizes minors as victims of commercial sexual exploitation, not criminals. Diverting fines to a Survivor Support Fund and offering diversion for adults will better prevent exploitation and support survivors. A Polaris Project survey revealed 42% of trafficking survivors had criminal records, with 90% saying their records stemmed from their exploitation ("In Harm's Way: How Systems Fail Human Trafficking Survivors," 2023). AB 379 could do a lot more - e.g., its focus on loitering perpetuates outdated stereotypes of sex buyers circling around a city block, while research shows solicitation has largely shifted online. I hope your letter urges co-sponsors to address online dynamics that are less visible. Overall, though, this bill is a step in the right direction.

Hi my name is Gabriel Contreras resident of barrio Logan I'm a father of a human trafficking survivor and we as a family experienced by first hand the frustration of having our 19 year old daughter missing and being sold like a thing in hotels and due to the lack of legislation to protect her and put hers exploiters in jail for long time we as a family had to go and try to rescue her our selves risking our lives.

Being directly impacted by this horrendous situation and ended with lot of trauma we believe is very important to encourage everyone one of you to support California Assembly Bill 379 the survivors support and demand Reduction Act, please support this legislation to keep our young ones safe.

16 and 17 year olds are not old enough to vote. They shouldn't be able to sell themselves. The adults who pay for sex with them are committing statutory rape. Shame on the legislator for not enforcing statutory rape laws

Support arresting the Johns, Buyers and Sellers of ANY age children under 18 and ANY person over 18 being trafficked period. Simple supply and demand? Remove the disgusting demand and make them accountable there will be no need for a supply. Expend the energy on the consumer if you really to stop them. Place the fear in them, not a slap on the wrist.

It is disgusting that law enforcement still treats minors as the criminal in these cases when decades of data support that they are most likely the VICTIM of trafficking and should be treated as such and HELPED, not criminalized. Please support this important measure to keep minors safe from trafficking.

I would have to study the bill and laws. While anyone can loiter for the purpose of prostitution, and those under 18 are highly unlikely to, surely having better things to do, there have been cases where these people are problems, not victims.

So, while I support the idea, I am not in favor of automatically exonerating anyone.

We must do everything in our power to end child sex trafficking. Assembly Bill 379 does just that. As a high-school senior and as an 18-year-old, I urge you to remember that the best defense against child exploitation is you. For the sake of San Diego, for young people, and to ensure that our most vulnerable are protected, it is imperative that AB379 not only be considered but put into action. San Diego's young people—including myself—are counting on you!
