Besides a temporary break on Gas taxes, something must be done to bring California gas prices more in line with the rest of the country!

Please get a good supervisor in district of San Diego that Nathan is in, it's been crime off the charts, deaths on the rise. They are becoming fat cats here and leaving us as peasants. They don't represent true American values. I have a suspicion that Nathan set his own house on fire. He is also an inside trader like the people he's connected to like Gavin newsom. Prosecute Nathan! He's very harmful to the citizens he always says it's about race. He's brought death and misery. No thank you.

I support suspending the tax on gas as it would seem more logical to let us keep our earned dollars to feed our families and continue getting to work, instead of ending up on the streets with a "will work for gas sign" like hundreds of families are considering right now. Many are having to do find another jobs that area closer to home and may not pay as good...as you know high tax leads to misuse of funds and disables mobility options. NO MORE TAX ON GAS

End these unconstitutional mandates immediately! More vaccinated people are in the hospital dying than vaccinated.

To solve the home affordability crisis please start looking at the real problem. Blackrock, Vanguard, and Chinese investors are buying up county real estate in droves. This has been a well-documented nationwide problem. Investment firms bid above asking price site unseen freezing out families. Kick Wallstreet investment out of our county. They are homes for real families, not packaged investment instruments to be be traded internationally by the Wallstreet casinos.

I support getting rid of the gas tax entirely, we pay sales tax already. We have a high surplus from over taxing we Barley can live as it is in San Diego. You should spend more time on getting Homeless off the streets.. they are homeless because of over taxing! Duh..

Get off of the Covid rant also. No one I know is for the mandate or shot card. School districts need to get off the Covid wagan, its rediculouse already. Borderlines on insanity! Move on!!

I support eliminating the gas tax in San Diego County for at least 6 months. Reportedly there is a surplus of monies collected. And, our gas taxes are already high. Relief at the pump specifically benefits working families, blue collar workers, and those commuting to work.  
Thank you.

Temporary removal of state gas tax would help everyone, especially those with lower income, as fuel costs are a larger proportion of their budgets. This is much more equitable than the silly idea of tax rebates, which benefits those in higher income brackets disproportionately, and would be immediate, not a year from now. We aren't all wealthy wine salesmen!

Please support a temporary suspension of gasoline taxes during this period of extremely high gas prices. This is also a very good way of returning some of the state budget surplus to the population. Thank you.

Please pay attention to the 55000 page Pfizer document release being broken down, segregated and researched with a fine tooth comb.

Results of same are answering and will continue to answer your wonderment as to "why people got one injection and never came back".

The results of the research on the document release less than a full week in, is scary.

I'm no expert, but it appears to the layman that something about these injections; safety data, the trials, and the ultimate censorship is bad.

I support eliminating the gas tax in San Diego County for a year.

It's insane we have such high gas tax when we have gas in our country but not drilling due to climate change.

Please consider increasing access to county libraries by extending operating hours. Currently most are 10am - 4pm M-F, which does not allow the majority of the working adult or school-aged populations to take advantage of this amazing social institution. Please consider extending library hours to evenings and weekends. I am in full support of COVID precautions at libraries and hope we can continue to utilize them to their full capacity. Thank you for all that you do.

I think it's wonderful that Supervisor Jim Desmond has suggested to the County Board of Supervisors a one-year suspension of the Gas Tax. He mentioned in the interview that there is a surplus of funds for road maintenance that the \$.50 gas tax has been collecting. This would be a great time to alleviate the financial burden that we are all facing due to the high cost of gas. We live in San Diego County, but my husband works in Orange county. Please support this initiative!
