The League of Women Voters of San Diego and the League of Women Voters of North County San Diego support the Board's continued development of affordable housing on county-owned property as described in Agenda Item #32. Specifically, we support the temporary use of property located at 6255 Mission Gorge Road in the Grantville area for use in the Grantville Safe Parking program. Identifying this property for temporary use as part of the Board's Compassionate Emergency Solutions and Pathways to Housing addresses the needs of people experiencing or at risk of homelessness while the affordable housing project site is in the planning process.

Utilizing currently available County-owned land in this temporary way is a creative and cost-effective way to immediately address the County's homelessness crisis. We also encourage robust public notice of such intended use to engage the local community in this important action.

The League of Women Voters of California's Meeting Basic Human Needs position calls for safe living spaces with facilities for personal hygiene for people experiencing homelessness. There is no need more basic for humans than safe shelter, which this proposal seeks to offer.

Thank you for your service and for your consideration.
