I call for the County to remove this item altogether and instead introduce an item to divest from Israel for its genocide of Palestinians and call for a permanent ceasefire in Gaza. Since 10/7/23, Israel has killed more than 20,000 Palestinians in Gaza, injuring at least 40,652, & killed at least 254, injuring more than 3,365 in the occupied West Bank -The majority being children and women. I did not know the County sent their Sheriffs to train with the Israel IDF - I DO NOT WANT THIS.

The County of San Diego uses tax payer money to send their Sheriffs to go train with the Israel IDF military. They learn brutal tactics that they bring back to San Diego and use on the residents here. Divest all County funds from going to Israel. Stop obfuscating by talking about Iran when Israel is currently committing genocide on Palestinians.

Anti semitism is wrong. At the same time, why are anti-Arab racism, anti-Palestinian racism and Islamophobia acceptable? The county has been silent on addressing your Arab and muslim constituents telling every person in this county that it is ok to hate us. You need to make a public statement NOW acknowledging your Arab and Muslim constituents and the genocide of Palestinians in Gaza and the West Bank.

Why is this even a discussion. investing in Iran is illegal at a federal and state level. There have been blanket prohibitions for business with Iran as US person for good reason for almost four decades, and investment bans for almost three.

In that time Tehran has cultivated an illicit nuclear program, incited genocide, become the world's foremost state sponsor of terror, a leading executor of minors, and rogue regime. Is that something Californian's want their retirement savings tied to?

The Islamic Republic of Iran is the biggest terror sponsoring country in the world. It is funding Hamas in gaza, Hezbollah in Lebanon, the houthis in Yemen, and other terror groups that are wrecking havoc around the world. Even as we speak today, US, UK, and Israeli-owned ships are being terrorized in the Red Sea. It is abundantly clear that this nation is ruled by evil zealots and every penny that goes into it only feeds this beast. We must do our part and be on the right side of history!

We have been told for years that Iran is a major threat for the western world and its belief in freedom and democracy. We ignored the pleas and now we are living with the results of our denial. What happened on October 7 did not need to happen. The massacre and subsequent war are the responsibility of Iran-backed Hamas. If we continue to provide funding to Iran, We are all responsible when terrorism then happens. Please be brave and do what may not be popular but what is necessary and right.

This item is nothing more than a political move to jump off the headlines in the news right now. The County continues to provide xenophobic highlights of the Middle East as terrorists and the October 7th attack on the Israeli community. Currently, 1,500 people from Israel have died yet you choose to ignore the genocide occurring in Palestine where 15,000 individuals (primarily women and children) have been killed and 36,000 individuals (also primarily women and children) have been injured.

What are we doing with funds in a country like Iran - waiting for a currency devaluation, for their stocks to tank, or maybe for the funds to become inaccessible? We should be investing wisely, in stable markets, preferably in countries that uphold Democratic values

It is important for you to know the risks of the international market. There are lots countries where the government and economy is not stable, Funds could be lost, stolen, or destroyed, So of course this is a needed divestiture.
