SUBJECT

AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

OVERVIEW

The County of San Diego (County) Health and Human Services Agency, Behavioral Health Services provides a comprehensive array of mental health and substance use services to people of all ages. These services are delivered through County-operated programs and contracts with community service providers. Coordinated services are supported through review of electronic health record data and data archives. These services support some the region's most vulnerable populations, including individuals who are experiencing homelessness, individuals with justice involvement, and children and youth with complex behavioral health conditions.

If approved, today's actions would authorize competitive solicitations, single source procurements, an amendment to extend an existing contract, and authorize agreements with California counties as necessary to provide the fiscal mechanism for reciprocal placement of foster youth between counties.

Today's actions would support the continuation of critical work to advance the behavioral health continuum of care throughout San Diego County. In doing so, these actions would advance the County's vision of a just, sustainable, and resilient future for all, specifically those communities and populations in San Diego County that have been historically left behind, as well as our ongoing commitment to the regional *Live Well San Diego* vision of healthy, safe, and thriving communities. This will be accomplished by upholding practices that align with community priorities and improving transparency and trust while maintaining good fiscal management.

RECOMMENDATION(S)

CHIEF ADMINISTRATIVE OFFICER

1. In accordance with Section 401, Article XXIII of the County Administrative Code, approve and authorize the Director, Department of Purchasing and Contracting, to issue competitive solicitations for each of the behavioral health services listed below, and upon successful negotiations and determination of a fair and reasonable price, award contracts for an Initial

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

Term of up to one year, with four 1-year Options, and up to an additional six months, if needed; and to amend the contracts to reflect changes in program, funding or service requirements, subject to the availability of funds and the approval of the Deputy Chief Administrative Officer, Health and Human Services Agency.

- a. Adult Drug Court and Re-entry Court
 - b. Assertive Community Treatment Services
 - i. Assertive Community Treatment for Adults Served by Assisted Outpatient Treatment and Community Assistance, Recovery, and Empowerment Programs
 - ii. Assertive Community Treatment for Adults Discharged from Long Term Care
 - c. Independent Living Association and Recovery Residence Association

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

4. In accordance with Board Policy A-87, Competitive Procurement, and Administrative Code Section 401, authorize the Director, Department of Purchasing and Contracting to amend and extend contract #563618 with Exodus Recovery, Inc. for the Mobile Crisis Response Team in the North Coastal region through June 30, 2026, and up to an additional six months, if needed; subject to the availability of funds; and to amend the contract as required to reflect changes to services and funding allocations, subject to the approval of the Deputy Chief Administrative Officer, Health and Human Services Agency.
5. Approve and authorize the Deputy Chief Administrative Officer, Health and Human Services Agency, to execute Memoranda of Agreement and/or Revenue Agreements with California counties as necessary to provide the fiscal mechanism for reciprocal placement of youth in a Group Home, Community Treatment Facility, Crisis Residential Program or Short-Term Residential Therapeutic Program for a term of five years, including amendments thereto that do not materially impact or alter the services or funding level. Additionally, waive Board Policy B-29 requirement for full cost recovery because the funding does not offset all costs due to the 35% local match requirement.

EQUITY IMPACT STATEMENT

The County of San Diego (County) Health and Human Services Agency, Behavioral Health Services (BHS) serves as the specialty mental health plan for Medi-Cal eligible residents within San Diego County who are experiencing serious mental illness (SMI) or serious emotional disturbance. BHS is also the service delivery system for Medi-Cal eligible residents with substance use care needs. In 2024, nearly one in three residents were eligible for Medi-Cal, with Hispanic and Latino residents having the highest percentage of Medi-Cal eligibility at 44%.

For these Medi-Cal eligible residents who experience SMI or have a substance use care need, BHS offers County-operated and BHS-contracted programs that address the social determinants of health by being accessible, capable of meeting the needs of diverse populations, and culturally responsive, with the intent to equitably distribute services to those most in need. In doing so, BHS strives to reduce behavioral health inequities, identifying needs and designing services in a most impactful and equitable manner, which will yield meaningful outcomes for those served. A comprehensive array of behavioral health services is vital for BHS to continue providing access to treatment and care for populations who are underserved by social and behavioral health resources.

SUSTAINABILITY IMPACT STATEMENT

Today's actions support the County of San Diego Sustainability Goal #2 to provide just and equitable access to County services and Sustainability Goal #4 to protect the health and well-being of everyone in the region. These goals will be accomplished by providing a wider availability and range of supportive, inclusive, and stigma-free options to those in need of behavioral health services. Access to a comprehensive continuum of behavioral health services will improve the overall health of communities.

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

FISCAL IMPACT

Funds for these requests are included in the Fiscal Year (FY) 2024-25 Operational Plan and FY 2025-27 CAO Recommended Operational Plan in the Health and Human Services Agency. If approved, today's recommendations will result in approximate costs of \$0.3 million and revenue of \$0.2 million in FY 2024-25, costs of \$14.5 million and revenue of \$13.9 million in FY 2025-26, and costs of \$104.6 million and revenue of \$104.0 million in FY 2026-27. A waiver of Board Policy B-29 is requested because the funding does not offset all costs of approximately \$0.1 million in FY 2024-25 and \$0.6 million in FY 2025-26 and FY 2026-27. The funding source for these costs is Realignment. The public benefit for providing these services far outweighs these costs. There will be no change in net General Fund cost and no additional staff years.

Recommendation #1 & 2: Authorize Competitive Solicitations

If approved, this request will result in estimated costs and revenue of \$7.4 million in FY 2025-26, and \$101.7 million in FY 2026-27. The funding sources are Mental Health Services Act (MHSA), Realignment, Short-Doyle Medi-Cal, Substance Use Block Grant, Drug Medi-Cal, Early and Periodic Screening, Diagnostic and Treatment, People Assisting the Homeless, Substance Abuse and Mental Health Services Administration, and State General Funds. There will be no change in net General Fund cost and no additional staff years.

Recommendation #3: Authorize Single Source Procurements

If approved, this request will result in estimated costs and revenue of \$1.2 million in FY 2025-26 and \$1.2 million in FY 2026-27. The funding sources are MHSA, Realignment, and Short-Doyle Medi-Cal. There will be no change in net General Fund cost and no additional staff years.

Recommendation #4: Authorize an Amendment to Extend an Existing Contract for the Mobile Crisis Response Team Program

If approved, this request will result in estimated costs and revenue of \$4.2 million in FY 2025-26. The funding source is Realignment and Short-Doyle Medi-Cal. There will be no change in net General Fund cost and no additional staff years.

Recommendation #5: Authorize to Enter into Agreements with California Counties for Reciprocal Foster Youth Placement

If approved, this request will result in estimated costs of \$0.3 million and revenue of \$0.2 million in FY 2024-25 and estimated costs of \$1.7 million and revenue of \$1.1 million in FY 2025-26 and FY 2026-27. The estimated costs are determined by the net number of foster youth placed in San Diego County and foster youth placed out of county. The net average over a three-year period is 34 youth placements at a cost of \$50,000 per youth. The funding source is Medi-Cal from the Department of Health Care Services. A waiver of Board Policy B-29 is requested because the funding does not offset all costs due to the 35% local match requirement of approximately \$0.1 million in FY 2024-25 and \$0.6 million in FY 2025-26 and FY 2026-27. The funding source for these costs is Realignment. The public benefit for providing these services far outweighs these costs. There is no change in net General Fund cost and no additional staff years.

Impending federal policy changes may have significant impacts on the financial sustainability of local mental health and substance use treatment programs funded through Medicaid, or Medi-Cal

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

in California, and may significantly impact the County of San Diego's ability to financially sustain behavioral health Medi-Cal programs.

BUSINESS IMPACT STATEMENT

N/A

ADVISORY BOARD STATEMENT

At their meeting on May 1, 2025, the Behavioral Health Advisory Board voted to approve these recommendations.

BACKGROUND

The County of San Diego (County) Health and Human Services Agency (HHSA), Behavioral Health Services (BHS) provides a comprehensive array of behavioral health services to vulnerable populations, including individuals who are experiencing homelessness, individuals with justice involvement, and children and youth with complex behavioral health conditions. Services are provided through County-operated programs and contracts with local public and private agencies.

Recommendation #1: Authorize Competitive Solicitations

a. Adult Drug Court and Re-entry Court

On November 16, 2021 (5), the Board authorized the procurement of Adult Drug Court and Re-entry Court services. The Adult Drug Court and Re-entry Court programs provide outpatient substance use disorder (SUD) treatment to adults ages 18 years and older with non-violent justice involvement, and substance use issues, including those who may also be experiencing co-occurring mental health disorders. These programs combine the resources and expertise of behavioral health experts and justice partners to address public safety issues and support program participants in becoming accountable and productive community members. Services are provided countywide. The Adult Drug Court and Re-entry Court programs provide care coordination, non-residential substance use treatment and testing services as an alternative to incarceration to reduce recidivism. Additionally, these programs provide recovery and ancillary services.

On December 18, 2024, San Diego County implemented the Treatment Mandated Felony Act (i.e., California Health and Safety Code 11395) through Proposition 36. This Act allows an individual to complete a treatment program developed by a drug addiction expert and approved by the court in lieu of a jail or prison sentence through a deferred entry of judgment. The Adult Drug Court programs are best suited to support successful care coordination and positive treatment outcomes because these programs work directly with justice partners and serve the justice involved population.

The Adult Drug Court and Re-entry Court programs combine the resources and expertise of behavioral health experts and justice partners to address public safety issues and support program participants in becoming accountable and productive community members. Services are provided countywide. In Fiscal Year (FY) 2023-24, the program served a total

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

of 462 unduplicated clients. Of the 174 clients who were discharged after completing the program, 100% had no new arrests, and approximately 90% had achieved a self-sufficiency goal, such as securing employment or enrollment in a training program.

Today's action requests the Board authorize a competitive solicitation for the re-procurement of the Adult Drug Court and Re-entry Court programs, to award up to five contracts, with an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed.

b. Assertive Community Treatment Services

Assertive Community Treatment (ACT) programs provide intensive multidisciplinary treatment services for clients who are experiencing or at risk of homelessness, with a serious mental illness (SMI), and whose needs cannot be adequately met through a lower level of care. Services are provided countywide by a multidisciplinary team to include psychiatry, medication management, case management, rehabilitation and support, peer support, co-occurring treatment, supportive employment, and housing support services. Research indicates that ACT services help reduce costs by shortening hospital stays, reducing emergency department utilization, and lowering justice system involvement. Additionally, ACT services enhance housing stability and improve overall quality of life. ACT services will continue to be eligible for Medi-Cal billing as part of Behavioral Health Community-Based Organized Networks of Equitable Care and Treatment (BH-CONNECT), providing a pathway for long-term sustainability.

Today's action requests the Board authorize competitive solicitations for the re-procurement of the following ACT services programs for an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed.

i. ACT for Adults Served by Assisted Outpatient Treatment and Community Assistance, Recovery, and Empowerment Programs

On January 26, 2021 (11), the Board authorized the procurement of Assisted Outpatient Treatment Outreach and Evaluation Services for adults participating in Assisted Outpatient Treatment (AOT) programs including those who meet Laura's Law criteria. Laura's Law provides court-ordered treatment for individuals with SMI who are unable to participate in voluntary treatment programs. After the implementation of the Community Assistance, Recovery, and Empowerment (CARE) Act in 2023, services were enhanced to include those service recipients as well. Both Laura's Law criteria and CARE Act ensure that services are provided to clients who are resistant to engagement and treatment.

In FY 2023-24, the program served a total of 119 unduplicated clients. In the same fiscal year, the percentage of clients who had at least one crisis service encounter during the 180 days before enrolling in the program was compared to the percentage of clients who received a crisis service after enrolling. There was a 68% reduction in crisis stabilization utilization, 57% reduction in Psychiatric Emergency Response

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

Team utilization, 40% reduction in crisis residential utilization, and 59% reduction in inpatient hospitalizations.

ii. *ACT for Adults Discharged from Long Term Care*

On June 4, 2019 (10), the Board authorized the procurement of ACT for Adults Discharged from Long-Term Care (LTC). This program provides ACT Full-Service Partnership services for individuals ages 18 to 59 who have an SMI, including those with co-occurring substance use, who are at risk of or experiencing homelessness, and who are discharged from county-identified LTC facilities. In FY 2023-24, the program served 156 unduplicated clients. Of the clients served, 76% showed functional improvement, while 74% showed clinical improvement. Additionally, 85% of clients showed progress in their housing goals and 39% of clients showed progress in their educational goals.

c. *Independent Living Association and Recovery Residence Association*

On March 1, 2022, under Administrative Code Section 401, the Department of Purchasing and Contracting authorized the procurement of the Independent Living Association (ILA) and Recovery Residence Association (RRA). On July 18, 2023 (15) and November 7, 2023 (31), the Board authorized increasing funds to offer CARE Act housing location options for the remaining contract years. Subsequently, on December 5, 2023 (24), the Board authorized the reallocation of American Rescue Plan Act funds for RRA enhancement.

The ILA and RRA provide services countywide to operators and residents. The programs help identify, promote, and develop independent living as well as build capacity to direct individuals to available resources in the community. Membership and support are offered for operators of both associations to establish a comprehensive set of quality standards. The programs advance the overall quality of shared housing, particularly for individuals transitioning into permanent supportive housing. Notably, nearly half of the Full-Service Partnership population resides in these homes, benefiting from the programs' emphasis on stability and supportive environments. In FY 2023-24, the programs identified 674 beds available for ILA and 710 beds available for RRA. In the same period, the ILA and RRA provided training to 1,152 participants.

Today's action requests the Board authorize a competitive solicitation for the re-procurement of the ILA and RRA programs for an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed.

d. *Biopsychosocial Rehabilitation Services*

On January 26, 2021 (11), the Board authorized competitive solicitations for Biopsychosocial Rehabilitation (BPSR) mental health outpatient services, in the North Inland, North Coastal, North Central, and Central regions. A wide range of BPSR services are available through these programs to meet the needs of the community, including older adult, transitional age youth (TAY), crisis, urgent walk-in, primary care collaboration, and co-occurring mental health and SUD services. Additional BPSR services are provided

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

throughout the county, including a countywide program that provides BPSR services to individuals who have experienced trauma and torture and are refugees and/or asylum seekers.

BPSR programs provide specialty outpatient mental health treatment, urgent walk-in services, rehabilitation, and recovery services to adults ages 18 years and older who have an SMI, including those who may have a co-occurring SUD. The programs provide community-based, recovery-oriented services that are integrated, strength-based, culturally competent, and trauma informed. BPSR programs offer evidence-based comprehensive outpatient mental health services, which include assessments, individual and group therapy, psychiatric services, medication management, care coordination, case management, and peer support. BPSR services aim to improve clinical stability, reduce functional impairment, facilitate independence and self-sufficiency, improve employment options, enhance psychiatric and social rehabilitation, and recovery.

In FY 2023-24, a total of 5,028 unduplicated clients were served. Recent clinical outcome measures from February 1, 2024, to December 24, 2024, demonstrated that 83% of clients showed clinical improvement and 82% showed functional improvement or stabilization. Additionally, 96% of clients demonstrated improvement or stabilization with their SUD.

Today's action requests the Board authorize a competitive solicitation for the re-procurement of BPSR programs in the North Inland, North Coastal, Central, and North Central regions to award up to five contracts, with an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed.

e. KidSTART Clinic and Caregiver Wellness Program

On June 4, 2019 (10), the Board authorized the procurement of the KidSTART Clinic Services program. The program provides critical services to vulnerable children ages 0 to 5 with complex social-emotional, mental health, and development needs, and their caregivers. The program focuses on providing timely intervention when treatment can be most efficient and cost-effective. Services include early identification and treatment of children with complex needs through an integrated system of screening, triage, assessment, treatment, and referrals. Additionally, a Caregiver Wellness component focuses on the behavioral health needs of the caregiver so they can best support the child.

The program contains two synergistic components: KidSTART Center, funded and overseen by First 5 San Diego under a separate contract, which provides assessment and comprehensive treatment of developmental delays in children; and KidSTART Clinic, funded and overseen by BHS, an outpatient behavioral health clinic that provides a full range of diagnostic and treatment services to children and their siblings with social-emotional and mental health needs. Research shows that symptoms of mental health problems can begin to manifest in infancy and toddlerhood, leading to detrimental effects on all aspects of a child's development and their ability to succeed in school and in life.

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

In FY 2023-24, the KidSTART Clinic served a total of 198 unduplicated clients countywide. Of the 118 discharged clients, 100% avoided psychiatric hospitalization during their outpatient episodes, and 85% participated in family therapy sessions. Of the 145 caregivers served, 77% engaged in individual/group therapy and care coordination. Additionally, 83% of the 110 discharged caregivers reported a high level of satisfaction with Caregiver Wellness. Finally, 25% of clients had Child and Family Well-Being Department (CFWB) involvement and 13% were foster youth. As of Quarter 3 FY 2024-25, 25% of children enrolled as clients have CFWB involvement.

Today's action requests the Board authorize a competitive solicitation for the re-procurement of the KidSTART Clinic Services program for an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed.

f. Sexual Treatment Education and Prevention Services

On June 4, 2019 (10), the Board authorized the procurement of Sexual Treatment, Education, and Prevention Services (STEPS). STEPS includes Outpatient and Structured Outpatient components, offering therapy and psychiatric services for children and young adults ages 6 to 21 who are presenting with problematic sexual behaviors. This is a countywide program serving Medi-Cal eligible youth and focuses on maintaining the youth safely in the home, community, school, and increasing prosocial functioning. The Structured Outpatient Program component is designed to offer a higher level of clinical intensity and includes a partnership with the education sector. Services include individual, group, and family therapy, case management as well as psychiatric services.

Research conducted in 2013 (Letourneau et al.) and 2021 (Borduin et al.) indicated that evidence-based treatment (Multi-Systemic Therapy) for youth presenting with problematic sexual behavior identified six favorable outcomes, including reduction in recidivism related to problematic sexual behaviors, reduction in time spent in detention facilities or out of home placement, decrease in delinquent activities, improvement in mental health symptoms, improvement in family and peer relations, and a decrease in substance use.

In FY 2023-24, the program served a total of 52 unduplicated clients, including those who were admitted in FY 2022-23 and continued receiving services. None of the 19 youth admitted to the program in FY 2023-24 sexually re-offended while enrolled. Of the 31 youth who were discharged in FY 2023-24, 94% avoided psychiatric hospitalization or re-hospitalization.

Today's action requests the Board authorize a competitive solicitation for the re-procurement of the STEPS program for an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed.

g. Substance Use Disorder (SUD) Outpatient Teen Recovery Centers

On June 4, 2019 (10), the Board authorized the procurement of the Teen Recovery Centers (TRC). The TRCs provide community-based early intervention, outpatient, and intensive outpatient treatment services for adolescents ages 12-17 years who have or are at risk for an SUD. Services are provided countywide with over 20 access locations, including clinics

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

and schools. Data from the Substance Abuse and Mental Health Services Administration, along with local statistics highlight a significant need for adolescent substance use treatment in both California and San Diego County. Research shows that substance use treatment for adolescents is most effective when it is developmentally appropriate, trauma-informed, culturally relevant, and engages parents and families in the treatment process.

In FY 2023-24, the TRCs served a total of 701 unduplicated clients. Of the 181 youth who were discharged and completed treatment in 31 days or more, 98% were enrolled in school or engaged in employment and 100% had no new arrests.

Today's action requests the Board authorize competitive solicitations for the procurement of the following SUD services for an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed:

- i. SUD Outpatient Teen Recovery Centers*
The SUD Outpatient Teen Recovery Centers (OTRCs) are designed to provide community-based early intervention and outpatient treatment services for adolescents ages 12-21 years who have or are at risk for a SUD. OTRC services are developmentally appropriate and trauma-informed, including screening and assessment, referral for medications for addiction treatment (MAT), substance use education and refusal skills training, individual and group counseling, family education and family therapy, peer support, care coordination, and introduction to prosocial activities.
- ii. SUD Intensive Outpatient Teen Recovery Center*
The SUD Intensive Outpatient Teen Recovery Center (ITRC) program is designed to provide intensive outpatient substance use treatment services for adolescents ages 12-21 and their families. The ITRC program serves adolescents with SUDs in need of six or more hours of service per week, aligned with the American Society of Addiction Medicine criteria for intensive outpatient care and partial hospitalization. SUD ITRC program services include comprehensive assessments, trauma-informed and culturally relevant individual, group, and family therapy, care coordination, including coordination with juvenile justice partners, MAT, co-occurring enhanced services, and peer support.
- h. Therapeutic Behavioral Services*
On June 4, 2019 (10), the Board authorized the procurement of Therapeutic Behavioral Services (TBS). TBS provides short-term one-to-one behavioral coaching for full scope Medi-Cal children up to 21 years old, who are experiencing a current emotional or behavioral challenge or experiencing a stressful life transition. Services include comprehensive assessments, creation of a care plan, behavioral coaching services, and case management.

TBS is a Department of Health Care Services (DHCS) mandate that the United States District Court for the Central District of California ordered to be implemented as a

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

supplemental service for Medi-Cal members, as outlined in Behavioral Health Information Notice 99-09 dated June 2, 1999. Services are provided countywide.

In FY 2023-24, the program served a total of 293 unduplicated clients. Of the 233 clients discharged, 98% did not require a more restricted level of care during the service duration of TBS. Additionally, 90% of discharged clients avoided psychiatric hospitalization or re-hospitalization during the outpatient episode.

Today's action requests the Board authorize a competitive solicitation for the re-procurement of the TBS program for an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed.

i. Intensive Case Management Wraparound Services

On June 4, 2019 (10), the Board authorized the procurement of the Intensive Case Management Wraparound Services program for children and youth ages 6 to 21 years residing within San Diego County. The program provides highly individualized, team-based care planning and coordination. It is designed to help families meet the child's needs and support stability in their current home or home-based setting.

Services are provided countywide and include intensive care coordination, intensive home-based services, psychiatric services, case management, and crisis intervention. The program consists of a wraparound team that assists the youth and family in a High Fidelity Wraparound (HFW) planning process. HFW uses an individualized, team-based, collaborative process to provide a coordinated set of services to support placement stabilization, skill building to reduce the need of system involvement, improvement of behavioral health functioning, and improvement of school attendance.

Under the Families First Prevention Services Act, Wraparound is required for all foster youth stepping down from Short-Term Residential Therapeutic Program (STRTP) level-of-care. A systematic review from the Journal of American Academy of Child and Adolescent Psychiatry on the efficacy of this type of care found significant effects in favor of Wraparound across a range of important youth outcomes, including reduced out-of-home placements, improvements in mental health functioning, and better school attendance and achievement. The study also indicated significantly lower overall costs of care for youth in program, due to reduced spending on out-of-home placements. Furthermore, DHCS has called for HFW to be included as an evidence-based practice, as noted in the State BH-CONNECT application addendum and to make it a requirement under the Behavioral Health Service Act.

In FY 2023-24, the program served a total of 135 unduplicated clients. Of the 109 youth discharged, 60% avoided hospitalization or re-hospitalization during the outpatient episode, and 99% avoided hospitalization 60 days post discharge.

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

Today's action requests the Board authorize a competitive solicitation for the re-procurement of the Intensive Case Management Wraparound Services for an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed.

j. Clubhouse Services

On January 26, 2021 (11), the Board authorized the procurement of five regional Clubhouses. Subsequently, on June 28, 2022 (5), the Board authorized the procurement of four specialty Clubhouses and one additional regional Clubhouse. Clubhouses assist TAY, adults, and older adults with an SMI, including those with a co-occurring substance use condition, in achieving social, financial, health and wellness, educational, and vocational goals.

Clubhouse services are based on the Clubhouse International model, a strength-based social model where clubhouse members and staff collaborate in the operation of the Clubhouse. Services include outreach and engagement, and involvement in the Work-Ordered Day model of inclusion in Clubhouse daily operations, aligned with Clubhouse International standards. In addition, evening, weekend and holiday activities are offered for socialization. Research shows that Clubhouse services can improve social connectedness, self-esteem, quality of life, and both physical and mental well-being. Additionally, these services help reduce hospitalizations, criminal justice involvement, as well as improve employment outcomes. Clubhouse services are provided countywide.

In FY 2023-24, Clubhouses served a total of 1,969 unduplicated members. Of the 607 members who had completed and updated an individualized goal plan, 87% reported improvement. Among the 265 members with baseline and follow-up data, there was a decrease in hospitalizations from 22% to 16%. Additionally, among the 301 members with follow up data, there was an increase in the percentage of members who were competitively employed from 11% at baseline to 19% at follow-up. Clubhouse services will be eligible for Medi-Cal billing as part of BH-CONNECT implementation, providing a pathway for long-term financial stability.

Today's action requests the Board authorize a competitive solicitation for the re-procurement of Clubhouse services, resulting in the award of up to 10 contracts, with an Initial Term of up to one year, with four 1- year Options, and up to an additional six months, if needed.

k. Adult Substance Use Disorder Residential Treatment Services

On July 18, 2023 (14), the Board authorized a competitive procurement for Adult Substance Use Residential Programs resulting in multiple contract awards. Subsequently, on May 21, 2024 (14), the Board authorized the renovation of the County owned Substance Use Residential & Treatment Services (SURTS) facility, located at 2300 East 7th Street in National City. These renovations included major mechanical, electrical, and plumbing systems, to modernize the dormitory rooms and office spaces, and to build-out of the Annex to include a working kitchen and laundry facility. Furthermore, on October 8, 2024 (5), the Board authorized the acceptance of grant funding that would designate a portion of funds to be used to establish recuperative care infrastructure and services within the

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

SURTS facility, as well as authorized the issuance of a competitive solicitation for provision of recuperative care services.

Adult SUD Residential Programs provide 24-hour, non-medical, residential substance use treatment, withdrawal management, recovery, and ancillary services to adults over the age of 18 with behavioral health conditions. Services are comprehensive, preventive, rehabilitative, and therapeutic behavioral health care delivered in the least restrictive environment and in the most effective mode based on the criteria set out by the American Society for Addiction Medicine. This may include clinical assessments for substance use and mental health conditions, and care coordination to support transitions in the behavioral health system when client needs exceed services available through the program. While services are provided countywide, this program will be based in South region and co-located at the SURTS facility alongside Recuperative Care services.

In FY 2023-24, existing Adult Substance Use Residential Programs served a total of 5,015 unduplicated clients, of which 35% discharged to an improved living situation, meaning independent or dependent living. Of the 3,330 clients who were experiencing homelessness upon admission and discharged as planned, 43% were placed in dependent and independent housing.

Today's action requests the Board authorize a competitive solicitation for the procurement of Adult SUD Residential Treatment Services for an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed.

Recommendation #2: Authorize Competitive Solicitations

a. Mobile Crisis Response Teams

On June 25, 2019 (1), the Board authorized the procurement of the Mobile Crisis Response Team (MCRT) program to serve the North Coastal region. Subsequently, on June 23, 2020 (26), the Board authorized the procurement of additional MCRT programs to serve the East, Central, North Inland, North Central, and South regions. Subsequently, on November 2, 2021 (6), the Board authorized the acceptance of Crisis Mobile Units grant funding from DHCS to expand and enhance MCRT programs within San Diego County. MCRT services include non-law enforcement mobile crisis intervention, behavioral health assessments, safety planning, de-escalation, transportation and linkage to the appropriate level of care, and/or care coordination for up to 30 days post-crisis encounter.

Research shows that not all law enforcement calls require an armed, uniformed officer. Behavioral health crisis calls are more effectively handled by non-law enforcement responders, allowing individuals in crisis to build trust and be connected to appropriate services. Services under these programs are provided countywide. In FY 2023-24, the programs served a total of 3,841 unduplicated clients and accepted 6,350 calls. Of those calls, 52% were stabilized onsite, 30% were connected to a lower level of care, 16% were connected to a higher level of care, and only 2% required law enforcement involvement.

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

Today's action requests the Board authorize a competitive solicitation for the re-procurement of the MCRT programs, to award up to two contracts, both for an Initial Term of up to one year, with six 1-year Options, and up to an additional six months, if needed.

b. *SchoolLink Referral System*

SchoolLink is a partnership between BHS, contracted community-based organizations, and local school districts to promote the behavioral health wellness of students. Through the SchoolLink partnership, students are provided with behavioral health treatment on designated school campuses, which promotes access to care. The current process for SchoolLink referrals relies on manual processes. There are a total of 28 SchoolLink contracts, which served 7,330 unduplicated clients during FY 2023-24. In FY 2023-24, 49% of the 5,297 clients discharged received family therapy services.

An automated SchoolLink Referral System will increase efficiency and effectiveness of the referral submission process, thus enabling schools and BHS-contracted programs to manage referrals electronically and reduce email-based business processes. The referral system will improve referral-related communication between schools and streamline the reporting process related to the management of SchoolLink referrals. Ultimately, the overall delivery of behavioral health services to children and families will be improved through the application of information technology.

Today's action requests the Board authorize a competitive solicitation for the procurement of the SchoolLink Referral System for an Initial Term of up to one year, with six 1-year Options, and up to an additional six months, if needed.

Recommendation #3: Authorize Single Source Procurements

a. *Incredible Years Outpatient Behavioral Health Services Program- Vista Hill Foundation*

Beginning in 2002, the Board began awarding and extending school-based contracts through a single source process. The County continues to work extensively with elementary, middle and high schools, and existing and potential providers to create an infrastructure that ensures that the entities selected to provide services on school campuses are the choice of the school districts. Over the years, this partnership has resulted in a system of care that emphasizes accessibility of behavioral health services on school campuses, with services tailored to the needs of the students, caregivers and schools.

On January 24, 2017 (2), the Board authorized the single source procurement of School-Based Outpatient Behavioral Health Services contracts with existing contractors including Palomar Family Counseling Service, Inc. for the Incredible Years Outpatient Behavioral Health Services Program, referred to as ChildNet in the North Coastal and North Inland regions. The outpatient programs provide culturally competent behavioral health services at designated schools, home, community or office and clinic locations, as well as via telehealth. Services include individual, group and family therapy, case management, rehabilitative services, crisis intervention, medication management as well as outreach and engagement to children and youth up to age 21, and their families.

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

During FY 2023-24, BHS had 28 school-based contracts, one of which was Palomar Family Counseling Service Inc. providing school-based outpatient behavioral health services to children ages 0-5 years and their caregivers using Incredible Years model in the North Coastal and North Inland regions. Palomar Family Counseling Service, Inc. has elected not to continue providing services past the termination of their ChildNet contract on June 30, 2025. To maintain access to specialty mental health services at school campuses serving children ages 0-5 years in the North Coastal and North Inland regions, it is recommended to establish a new contract with Vista Hill Foundation (VHF), as the School District choice, to continue the services previously provided by Palomar Family Counseling Service Inc. to 160 unduplicated clients annually. VHF is a current school-based services provider in the North Coastal and North Inland regions, offering several services under County contracts.

VHF has been selected by the Escondido, Oceanside, and Vista School Districts as the exclusive provider of the Incredible Years ChildNet school-based mental health services and has established agreements for services with the school districts. This qualifies as a single source contract based on Board Policy A-87 Competitive Procurement, Section 1D-4: A service provider has an exclusive agreement with the supplier and no other entity may provide the services. This collaboration and partnership between BHS and school districts has resulted in significant expansion of behavioral health school-based services where the contractors possess expertise, competencies, resources, and a partnership with the school district that cannot be replicated. In FY 2023-24, ChildNet served a total of 125 unduplicated clients. Of the 71 discharged clients, 100% avoided psychiatric hospitalization during an outpatient episode, 70% demonstrated clinically significant improvement and 84% participated in family therapy sessions.

Today's action requests the Board authorize a single source contract with VHF for Incredible Years Outpatient Behavioral Health Services Program in the North Coastal and North Inland regions for an Initial Term of up to one year, with four 1-year Options, and up to an additional six months, if needed. If approved, today's actions will ensure efficient continuation of school-based behavioral health services in the North Coastal and North Inland regions.

b. Mental Health Services Information System - ELLKAY, LLC

On July 12, 2005 (4), the Board authorized the procurement for a Mental Health Services Management Information System and a contract for a Practice Management and Managed Care System was awarded to meet the identified needs. Through subsequent contract actions over the years, the information systems established for the San Diego County Psychiatric Inpatient Hospital and the BHS Outpatient system of care have supported required clinical, administrative, billing documentation and operational processes.

The current contract for Electronic Health Record (EHR) services includes data archival through a third-party vendor, ELLKAY, LLC (ELLKAY). ELLKAY offers a software-as-

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

a-service platform and repository that enables the secure, structured, and compliant storage, retrieval, and management of discrete medical, clinical, and financial data, as well as non-discrete reports, documents, and other related information. The EHR contractor has informed the County that they will be sunsetting their agreement with ELLKAY. Therefore, to ensure the long-term preservation and accessibility of patient data, it is required that the County contract directly with ELLKAY. By ensuring continuity with the same provider, data migration between different systems within their platform becomes more streamlined and less complex. Furthermore, users are already trained in the interface and functionality of the EHR provider's archive, making access and navigation more efficient. Moving to an alternate EHR provider represents a risk of loss of data, as well as delays in productivity as staff will need to be trained on new systems. There are also additional financial costs to incur with the introduction of a new system, such as implementation fees and other associated costs. This qualifies as a single source contract based on Board Policy A-87 Competitive Procurement, Section 1D-6: The procurement is for services where continuity of providers will provide efficiency or critical knowledge. If a single source contract with ELLKAY is approved, this will also ensure providing retention for legal and regulatory compliance, reporting needs and support of ongoing patient care.

Today's action requests the Board authorize a single source contract with ELLKAY, LLC for Mental Health Services Information System for an Initial Term of up to one year, with two 1-Year Options, and up to an additional six months, if needed.

Recommendation #4: Authorize an Amendment to Extend an Existing Contract for the Mobile Crisis Response Team Program

On June 25, 2019 (1), the Board authorized the procurement of the Mobile Crisis Response Team programs, which resulted in the execution of two contracts, one to serve the North Coastal region and another to serve the East, Central, North Inland, North Central, and South regions. Subsequently, on November 2, 2021 (6), the Board authorized the acceptance of Crisis Mobile Units grant funding from DHCS to expand and enhance MCRT programs within San Diego County. MCRT services include non-law enforcement mobile crisis intervention, behavioral health assessments, safety planning, de-escalation, transportation and linkage to the appropriate level of care, and/or care coordination for up to 30 days post-crisis encounter.

In FY 2023-24, the program in the North Coastal region served a total of 796 unduplicated clients and accepted a total of 1,285 calls. Of those calls, 54% were stabilized in the field, 35% were connected to a lower level of care, 9% were connected to a higher level of care, and only 2% required law enforcement involvement.

Today's action requests the Board authorize an extension of the current contract #563618 with Exodus Recovery, Inc. for the MCRT in the North Coastal region through June 30, 2026, and up to an additional six months, if needed. Extending this contract will support monitoring efforts,

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

data reporting and analysis, and aligning procurement planning schedules for MCRT programs countywide.

Recommendation #5: Authorize Agreements with California Counties for Reciprocal Foster Youth Placement

On January 24, 2017 (2), the Board authorized the implementation of residential based behavioral health services that are in DHCS, Department of Social Services, or designee certified or licensed as 24-hour residential or placement programs to ensure that these services are available on an ongoing basis and that placements can meet the needs of clients. These programs provide a full range of outpatient diagnostic and treatment for children and adolescents ages 12 to 19 and placed in foster care who are full-scope Medi-Cal beneficiaries and are residing in a STRTP.

Effective July 1, 2017, Assembly Bill (AB) 1299 approved the establishment of Presumptive Transfer, which aimed to ensure timely access to mental health services for foster children who are placed outside their county of original jurisdiction. AB 1299 shifted primary responsibility for delivery and payment of Specialty Mental Health Services (SMHS) from the county of original jurisdiction to the county in which the foster child resides (county of residence). Effective July 1, 2024, AB 1051 established an updated process for youth placed in congregate care outside their county of original jurisdiction. Because some residential placements are intended to be short term, AB 1051 requires the Mental Health Plan (MHP) in the county of original jurisdiction for a Medi-Cal eligible foster child to maintain responsibility for the arrangement and payment of SMHS when the foster child or youth is placed out of the county in a Group Home, Community Treatment Facility, Crisis Residential Program or STRTP. This updated process requires the MHP in the county of original jurisdiction to either establish contracts with out-of-county SMHS providers or establish an agreement with the MHP in the county of residence to facilitate payment to the local provider. Per the proposed agreement, the MHP in the county of original jurisdiction will reimburse the county of residence solely for the portion of funding not covered by Medi-Cal. The MHP in the county of residence will ensure the provider meets all Medi-Cal regulations, including documentation requirements for SMHS and Medi-Cal certification. BHS will be serving as the San Diego MHP. In FY 2023-24, the County Probation and CFWB departments placed 32 youth in out of county STRTPs across nine counties. Additionally, in FY 2023-24, there were 114 out-of-county youth in local STRTPs. In FY 2024-25, there are 13 out-of-county youth in local STRTPs.

Today's action requests the Board approve and authorize the Deputy Chief Administrative Officer, HHSA to enter into Memoranda of Agreement and/or Revenue Agreements with California counties as necessary to provide the fiscal mechanism for reciprocal placement of youth in a Group Home, Community Treatment Facility, Crisis Residential Program or STRTP for a term of five years, including amendments thereto that do not materially impact or alter the services or funding level.

If approved, this request will result in estimated costs of \$0.6 million and revenue of \$0.4 million in FY 2024-25 and estimated costs of \$1.7 million and revenue of \$1.1 million in FY 2025-26. The estimated costs are determined by the net number of foster youth placed in San Diego County

SUBJECT: AUTHORIZE COMPETITIVE SOLICITATIONS, SINGLE SOURCE PROCUREMENTS, AMENDMENT TO EXTEND AN EXISTING CONTRACT, AND AGREEMENTS WITH CALIFORNIA COUNTIES FOR RECIPROCAL YOUTH PLACEMENT (DISTRICTS: ALL)

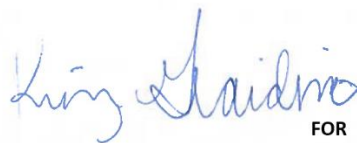

and foster youth placed out of county. The net average over a three-year period is 34 youth placements at a cost of \$50,000 per youth. The funding source is Medi-Cal from DHCS. A waiver of Board Policy B-29 is requested because the funding does not offset all costs due to the 35% local match requirement of approximately \$198,334 in FY 2024-25 and \$595,000 in FY 2025-26. The funding source for these costs is existing Realignment. The public benefit for providing these services far outweighs these costs. There is no change in net General Fund cost and no additional staff years.

Impending federal policy changes that are being proposed may have significant impacts on the financial sustainability of local mental health and substance use treatment programs funded through Medicaid, or Medi-Cal in California. Any significant Medicaid policy changes will impact the County's ability to financially sustain behavioral health Medi-Cal programs. Additionally, growth in realignment funding has not kept pace with the increased costs for services, which is utilized as a local match for Medi-Cal programs.

LINKAGE TO THE COUNTY OF SAN DIEGO STRATEGIC PLAN

Today's proposed actions support the County of San Diego 2025-2030 Strategic Plan Initiatives of Equity (Health) and Community (Quality of Life) as well as the regional *Live Well San Diego* vision of healthy, safe, and thriving communities. This is accomplished by reducing disparities and disproportionality of individuals with mental health and substance use conditions and ensuring access to a comprehensive continuum of behavioral health services administered through accessible behavioral health programs.

Respectfully submitted,

FOR

EBONY N. SHELTON
Chief Administrative Officer
