Hi, my name is Richard Siaba, a member of IATSE local 122 and I want to urge the County BOS to move forward with the full San Diego Film Initiative. Bring the film industry to San Diego! We've got the talent, the local workforce and with the creation of the CVEC we also have the infrastructure not to mention beautiful locations. I am currently working at The Old Globe Theater in Balboa Park as a scenic carpenter and boy do we make some beautiful scenery for our shows. I would love to put the same work and passion I do here into creating the sets for film and television in the city of San Diego. It's always been a passion of mine and I would rather do it here than in Los Angeles. My head carpenter and lead carpenter have both worked for the 495 in the past and I see myself working for a San Diego Film Initiative in the future.

the International Alliance of Theatrical Stage Employees, Moving Picture Technicians, Artists and Allied Crafts of the United States, Its Territories and Canada.

The San Diego Food Bank is the region's leading hunger-relief organization, serving every community across the county. The County's investment is making a measurable difference for families and children facing food insecurity.

With ongoing funding in the annual budget, we can confidently project and increase the number of individuals and families served each month, rather than fluctuating based on one-time allocations. Predictable funding also enables us to bring on new community partners—schools, pantries, and mobile distributions to rural areas—because we can commit to consistent support.

Sustained funding ensures we can operate efficiently, stretch every dollar further, and deliver reliable access to nutritious food for those who need it most.

Thank you for hearing the public early in the process. Support local small business! Not cannabis lounges or expensive housing! We need to do a withdrawal from sucking up to big developers. It's expensive and not particularly local small business either. Priorities:

1. Police, Fire, Ambulance, Emergency Services.
2. Housing – quick housing like 3D printed homes, which also can be built quickly to keep up with housing need and not result in an oversupply of expensive housing. Keep rents and contingency fees low. Also, more housing for the truly low income (30% AMI per HUD.)
3. Food, Housing Vouchers (replacement for Fed and perhaps State programs.)
4. Child protective, treatment and welfare services – no more kidnapping or abuse in the guise of protective or adoption services.

Unlocked reserves means the money you need might not be there. Look at the cities who use this.

The good news is that the majority of reserve transfers so far seem to be reasonable.
