Using law enforcement to push people from one location to another without having real solutions to offer is not a plan for ending - or even beginning to address - homelessness. I strongly urge you to follow the evidence and prioritize investment in housing and supportive services, offered in a trauma-informed way rather than simply continuing to traumatize our neighbors who have been priced out of housing across the county.

I urge you to oppose the unsafe camping ordinance, which directly contradicts the principles laid out in your Comprehensive Homeless Policy (A-128) and Homeless Solutions and Prevention Action Plan. The evidence calls for housing coupled with supportive services, not criminalization. Please recommit to your policy of moving away from outreach by law enforcement and support the Housing First, trauma-responsive, low-barrier, and harm reduction strategies that work and that County policies require.

Townpeople strongly opposes the proposed camping ban for San Diego County. As a local business operator, we understand the importance of community health and safety in ending homelessness. Evidence supports housing as the solution. If we're committed to safety and public health, we should promote proven policies. The Board declared homelessness a public health crisis in 2022. This ordinance contradicts that. We urge the Board to prioritize person-centered solutions and reject this ordinance.

The San Diego LGBT Community Center opposes this proposed encampment ban. As the largest health and human services provider for the LGBTQ+ community in San Diego County, we have seen firsthand the negative impacts of policies punishing unhoused individuals- disproportionately impacting LGBTQ+ people and LGBTQ+ youth. This will be yet another attempt to criminalize homelessness instead of addressing root causes and providing comprehensive resources. The Center opposes this item.
