It would be nice if the Agenda Attachments said what they were instead of just an Attachment number or letter. Many agenda items have the attachments labeled with a proper description. If you want to promote transparency with the public, just do it!

Sec. 91.1.105 requires a permit for many changes. It would be nice if there were a chart or table in the Code showing all of these permits, or a link to it, and where to get them. Transparency!

Most of the changes seem to be good.

However, the ordinance amending schedule F of section 362 of the Admin Code, which increases the discount for sustainable building from 7.5 to 15%, is not a wise move with the County having a large structural deficit.
