April 4, 2024

Attention: San Diego County Board of Supervisors

Subject: Letter of Support for Roundabout TransNet Program Funding

Dear San Diego County Board of Supervisors,

On behalf of the Rancho Santa Fe Board of Directors, I want to express our support for the programming of \$3 million for roundabouts within the 2025 TransNet Program of Projects. As you may be aware, Del Dios Highway is major thoroughfare that connects the east and west county communities in San Diego County. Over the years, as the only viable east-west corridor, it has experienced tremendous traffic growth leading to traffic congestion, safety issues, reduced mobility, delays, and air pollution.

Residents of Rancho Santa Fe and nearby communities have long waited for the implementation of the roundabouts. Programming the \$3 million for one of the first roundabouts will relieve congestion, provide traffic calming, increase bike mobility, and enhance the environment. We strongly support the allocation of this funding and appreciate the Board of Supervisors' consideration of the request.

Sincerely,

Courtney LeBeau

President, Board of Directors
Rancho Santa Fe Association
