Overall Sentiment

Amy Billburg

Location: 92028, Fallbrook
Submitted At: 12:47pm 07-17-24

Why would anyone in their right mind choose a location that is at risk as a high fire danger to place this storage system? It's certainly not for betterment of the community. I would like to place my vote as a NO to implement this facility. Please protect our inhabitants and support our community. This is safety hazard that should not be in the town of Fallbrook.

Denise McFarland

Location: 92028, Fallbrook
Submitted At: 11:55am 07-17-24

As a citizen of Fallbrook, I request development standards for battery energy storage systems projects be developed PRIOR to constructing them in unincorporated San Diego County.

Elizabeth Vanni

Location: 92028, Fallbrook
Submitted At: 11:49am 07-17-24

Support the creation of zoning standards for these BESS locations, esp. given that the are located within residential districts.

Lim Oyler

Location: 92028, Fallbrook
Submitted At: 10:59am 07-17-24

As I understand it, the storage of lithium batteries comes with some risk to those in close proximity of the building if there was a fire or some type of breach with the structure. It would seem since this structure is already in place that necessary building permits and codes were in place. Sometimes these types of facilities slip by in rural areas without needing community input. Many questions need to be addressed regarding public safety.

Antony Barrymore

Location: 92010, Carlsbad
Submitted At: 9:54am 07-17-24

I support the measure

Joshua Tiller

Location: 92028
Submitted At: 9:50am 07-17-24

I support standards being put in place for this facility. We are already having trouble getting insurance for our homes due to high fire risk and I feel like this facility will only make it harder for us.

Nancy Sawdon

Location: 92028, FALLBROOK
Submitted At: 9:38am 07-17-24

I support that standards definitely should be set up before building such a potentially dangerous project. I oppose the Bess project being in a residential neighborhood, because of all the potential dangers. This is especially true for a community struggling to get fire insurance. This project should not have been slipped into our community."

Kyra Kelm

Location: 93028, Fallbrook
Submitted At: 9:14am 07-17-24

Fire risk and toxic emissions and noise levels too high. Place battery storage in non-populated areas

Deborah Gonzales

Location: 91905, Boulevard
Submitted At: 8:57am 07-17-24

I am in support of this because we need safety standards. stop building these in high fire risk area's, residential area's, commercial area's.

Peggy Brown

Location: 92003, BONSALL
Submitted At: 8:50am 07-17-24

A comprehensive plan is needed. Please don't continue to push hazardous and undesirable factors into our unincorporated areas.

Wendy Mihalic

Location: 91941, La Mesa
Submitted At: 8:44am 07-17-24

Blocking new battery storage projects from moving forward while standards are developed is unacceptable.

Batteries:

Soak up excess renewable energy during the day and deliver it after dark

Eliminate the cost and inefficiency of keeping dirty gas peaker plants in reserve

Help prevent black-outs during heat waves.

Can stabilize the grid during normal energy fluctuations that occur throughout each day.

San Diego communities can benefit. The development process should not be put on hold.

Rachel Dumler

Location: 92028, Fallbrook
Submitted At: 8:37am 07-17-24

As a citizen of Fallbrook, I request development standards for battery energy storage systems projects in unincorporated San Diego County.

H Wells

Location: 92028, Fallbrook
Submitted At: 8:35am 07-17-24

While I support development standards for all projects, I'm appalled an initial BESS has been built in the heart of Fallbrook. This poses a huge risk to our community in the event we're faced with a fire. This should never have happened in the first place given so many other remote options from which to choose.

Danielle Giambrone

Location: 92028, Fallbrook
Submitted At: 8:28am 07-17-24

As a resident of unincorporated san diego county, BESS facilities need safety standards to protect and inform the community, and until these are set to the satisfaction of the citizens living on close proximity there needs to be a moratorium. Especially considering the Fallbrook facility is in a high fire risk area in the middle of a residential area.

Maria Gonzalez

Location: 92028, Fallbrook
Submitted At: 8:24am 07-17-24

As a citizen and long life resident of Fallbrook I am in favor of this proposal. This would affect my family including my 96 year old father. This brings concern for our health, safety and well-being. We need to be heard for our families and our community. In favor for proper standards, safety guidelines in place. This is a residential area which we shouldn't have this here at all. We matter, our life matters, family and community matters.

Julianne Koehler

Location: 92029, Escondido
Submitted At: 8:17am 07-17-24

Please develop standards and until then establish a moratorium.

Matt Eklund

Location: 92028, Fallbrook
Submitted At: 8:15am 07-17-24

Thermal runaway associated with lithium ion battery systems is common place in the news. This is the same technology that is in BESS container battery systems. The concern of residential and commercial properties within proximity of these facilities is a concern with regards to any hazardous or toxic fumes that may emit from an unintended fire. It may make better sense to have them isolated further away so that first responders can address any incident that may occur safely.

Mary Davis

Location:
Submitted At: 8:15am 07-17-24

I support creating standards for BESS projects. Also, please add fire risk & severity zone considerations into your criteria. BESSs should absolutely NOT be allowed in areas deemed 'Very High' Fire Hazard Severity Zone. It is unconscionable that the County would allow high fire-risk projects into areas where residents are getting their homeowner's insurance canceled. These companies come into our communities to profit. The community gets the risk hazard, while the companies pocket the cash.

Julie Eklund

Location: 92028, Fallbrook
Submitted At: 8:11am 07-17-24

I support Standards to be in place for BESS projects, especially in our little town of Fallbrook. I live in an extremely high fire zone here, and this is unacceptable! There are many other places to install BESS where residential properties are not in close proximity. Our Fire insurance premium is off the charts, and we don't want to get our policy dropped. Thank you.

Rita Digges

Location: 92078, San Marcos
Submitted At: 8:08am 07-17-24

We do not want a fire hazard such as the proposed battery storage plant anywhere near a densely populated area such as San Elijo Hills. We have very limited escape routes in case of an emergency. An emergency at this

plant would not only put the community in jeopardy but also close at least one of the major road out of the area.

Sean Cox

Location: 92028, Fallbrook
Submitted At: 8:08am 07-17-24

My young family live very close to this new plant. There was never a discussion about building this battery plant in our town. There has been no discussion of action if there is a possible leak or explosion is something and how much it would affect the entire town, water, river system, echo system. This is definitely a possibility. If something were to happen and there was a fire, it could be catastrophic for our entire town. This was never talked about or voted on by its local members.

Jayne Crabtree

Location: 92028, Fallbrook
Submitted At: 8:04am 07-17-24

This is not right! No one was asked if this could be built here!! It is too close to housing and my home. We the people are opposed to having this built in Fallbrook! This is dangerous to our already fire prone town! We vote against it!

Pamela Wise

Location: 92028, Fallbrook
Submitted At: 7:53am 07-17-24

I am in favor of establishing standards, good standards.

Dave Bacter

Location: 92028, Fallbrook
Submitted At: 7:43am 07-17-24

Support

William Osborn

Location: 92029, Escondido
Submitted At: 7:38am 07-17-24

Communities should be used as experiments for utility scale BESS installations. Their dangers are well documented and their technologies are new with many of their fire suppression systems untested in the real world. I urge you to support a moratorium on BESS solutions in residential areas.

Steve Balla

Location: 92028, Fallbrook
Submitted At: 7:26am 07-17-24

Haven't the 2 Battery Storage facilities in Valley Center fires in 2022 and 2023 raise any red flags? There have been explosions/fires at these type of facilities in Surprise, Az., New York state, Australia. The Lithium-Ion technology just hasn't been refined to the point that these facilities have no place in residential areas. Once a fire starts, they are difficult to extinguish & get under control. We have been told at different times to not park our electric vehicles in our garages. Caution!

April BevinsCooper

Location: 92029, Escondido
Submitted At: 7:14am 07-17-24

Please help regulate BESS in residential areas as there's not enough information available to know they are safe in residential communities. Thank you

Matt East

Location: 92028, Fallbrook
Submitted At: 7:13am 07-17-24

I support having safety guidelines in place and proper solutions to the issue of fire and the run off and out gassing of toxic materials When this system does catch fire and needs to be extinguished

Debra Mirr

Location: 92003, Bonsall
Submitted At: 7:09am 07-17-24

Mira Mesa not Fallbrook, Mira Mesa has greater capacity for controlling hazmat situation if something should happen. The unincorporated counties are not equipped for storage if this type. With Navel Air Station at Mira Mar nearby there would be available resources to assist in an emergency. BESS does need standards in place and one part of the standard is to put the storage facilities in incorporated areas of the county where they can be managed more efficiently with resources close by.

Kari Coppess

Location: 92028, Fallbrook
Submitted At: 7:07am 07-17-24

Why were we not informed and discussing this - PRIOR, to these projects being built?!?! . Why was the Fallbrook facility built, right in the middle of a neighborhood and close to our little town?!? Despicable. A complete lack of respect, concern or care for the people that live in the locations these facilities are being built.

Jenna Ussher

Location: 92028, Fallbrook
Submitted At: 6:59am 07-17-24

I am greatly opposed to this project! The BESS is directly behind my house. I look out of my kitchen window and see the BESS! Not only is a complete eye sore, I have great concerns regarding my family's health and safety having the BESS so close. I am concerned with the toxins this plant may be emitting, I am concerned for the huge fire risk! Fallbrook residents are already being dropped from their home owner's policy due to the fire risk in our area. The BESS should not be in a residential area

Jeff Haas

Location: 91962, pine valley
Submitted At: 6:55am 07-17-24

As a resident of Pine Valley I support the need for requirements to be implemented during the placement of these BESS builds. These systems are great when implemented correctly however the installation of these systems in most cases do not take into account ground water pollution run off and effects on the public when the batteries catch on fire. There are no containment systems in place to capture the toxic fumes released during a run-away event. These systems need to be fully sealed.

Jenna Gratz

Location: 92028, Fallbrook
Submitted At: 6:46am 07-17-24

The risk greatly outweighs the benefit and that alone should have made this project stop. There should be standards, protocols and accountability for facilities that pose a high risk to the community.

Katelyn Pengilley

Location: 92028, Fallbrook
Submitted At: 6:40am 07-17-24

This is not ok. We need proper standards. Let's care for our residents and their overall health

Cecilia Taylor

Location: 92028, Fallbrook
Submitted At: 6:36am 07-17-24

I support the need for standards for BESS. We also need easily available information regarding the status of this facility, its maintenance and most important, what we, the residents of Fallbrook, should do in case of a fire. The lack of transparency when this project was approved is appalling but, BESS is here, and now we need to be prepared should a disaster happens. Jim Desmond's efforts against BESS should be commended.

Jennifer Vellom

Location: 92028, Fallbrook
Submitted At: 6:31am 07-17-24

As a resident of Fallbrook, within 2 miles of the location of the system, I am in favor of establishing developing standards for BESS.

Alison Beisler

Location: 92028-6800, Fallbrook
Submitted At: 6:30am 07-17-24

Greatly opposed! Our little town is not meant for something like this! Go put it in the middle of the desert where no one is around.

Benjamin Brown

Location: 92029, Elfin Forest
Submitted At: 6:27am 07-17-24

SUPPORTING Item 8 (consent calendar) and reiterating that we need for a moratorium: neighborhoods shouldn't have to be the guinea pigs while we figure out the best way forward. Yes on the moratorium. This is item #8 on the consent calendar, so towards the beginning of the

Pamela Haas

Location: 91962-4501, Pine Valley
Submitted At: 4:42am 07-17-24

I support this because battery storage facilities need standards and guidelines that are common sense. Thank you.

Carol Reed

Location: 92028, Fallbrook
Submitted At: 3:05am 07-17-24

There needs to be assessment and strict standards for BESS. This is not appropriate for Fallbrook and we fear the fire in Otay Mesa could happen here. NO BESS. Get out of Fallbrook and stay out!

Leslie Nisly

Location: 92028, Fallbrook
Submitted At: 2:21am 07-17-24

In support of Jim Desmond efforts AGAINST Battery Storage in Fallbrook. As a resident, will we get a stipend when our home ins gets dropped or increased due to this hazard? Battery Storage belong in Commerical/Industrial areas where fighter fighters are specially trained(like airport crashes). The events that have occurred at the other 2 battery storages in SD are example of lack of regulations. Protecting human/animals lives should take precedence.

Peggy Hanne

Location: 92028, Fallbrook
Submitted At: 12:25am 07-17-24

We need standards and we don't need this in our community! Fire risk for a small town with 2 main roads out is a disaster waiting to happen.

Monica Wyman

Location: 92028, Fallbrook
Submitted At: 11:19pm 07-16-24

Please establish regulations of BESS operations at a minimum. However, I am absolutely opposed to having them in residential neighborhoods and especially in high fire areas such as Fallbrook. As a newer (4 years) resident of Fallbrook, I find it very alarming to see the lack of thought and care for the residents here and other communities where these facilities are operating. I'm amazed by the lack of transparency and preparation for the impact on our towns. Our quality of life is at risk.

Dylan Deforest

Location: 92028, Fallbrook
Submitted At: 11:10pm 07-16-24

IN FAVOR of standards to protect our citizens and community from utilizing unincorporated areas. Considering safety of our residents, the growing population and road/traffic infrastructure, standards are imminent for our town to prevent a potentially fatal situation.

Lorraine Carson

Location: 92028, Fallbrook
Submitted At: 11:02pm 07-16-24

I support pausing applications and establishing standards for BESS.

Myriam ElKhawand

Location: 92029-4818, Escondido
Submitted At: 10:58pm 07-16-24

Residential neighborhoods should not be experimental fields before regulations are put in place.

Samantha Barrymore

Location: 92010, Carlsbad
Submitted At: 10:54pm 07-16-24

Fallbrook isn't suitable for a BESS facility. I support setting standards in place.

JP Theberge

Location: 92078, San Marcos
Submitted At: 10:51pm 07-16-24

I and the community of Elfin Forest, Harmony Grove and Eden Valley support an ordinance to regulate the placement of these facilities, particularly avoiding residential, hospitals, schools and day cares. We also support a moratorium in place for any facility proposed in residential areas until regulations are developed.

Erik Laurentzius

Location: 92028, Fallbrook
Submitted At: 10:43pm 07-16-24

I support establishing standards.

Jennifer Neese

Location: 92028, Fallbrook
Submitted At: 10:41pm 07-16-24

I support needing standards in place, but I & many others completely oppose this insanity of having these BESS operations in a neighborhood to begin with. It's been shown in multiple states that these can catch fire & be health & safety hazards to the communities impacted, & long term health consequences can ensue if there were to be a fire, which has to happened multiple times. Please listen to your constituents & get these relocated to more desolate areas before we have a crisis on our hands.

Edward Philbrick

Location: Ca, San Marcos
Submitted At: 10:33pm 07-16-24

I'm strongly against the placement of the project in a high-fire area with little to know alternative evacuation exits. I was redirected on a vacation for Tesla Moss Landing battery fire in 2022.

Kamala Slight

Location: 92029, Escondido
Submitted At: 10:23pm 07-16-24

The County Board of Supervisors must research and create development standards for siting Battery Storage Facilities in the unincorporated county that take into consideration public safety and welfare.

Vickie Swenson

Location: 92028, Fallbrook
Submitted At: 10:06pm 07-16-24

I am constantly surprised how our government that is supposed to be so transparent continues to start projects that harm people and our environment and almost accidentally, our citizens discover these projects after they are to a point they can't be stopped. This project has the potential to do long term serious harm and should have been debated publicly.

I am opposed to this battery storage facility being operated in a populated area.

Jim Loge

Location: 92028, Fallbrook
Submitted At: 10:06pm 07-16-24

I agree there needs to be standards for BESS

Phil Delaney

Location: 92088, Fallbrook
Submitted At: 9:47pm 07-16-24

Please read the comments that are opposed and you will see that most of the commenters appear to have inadvertently selected a position of "Oppose" but their comments clearly show that they are IN FAVOR of Standards. Thank you!

Lila Hargrove

Location: 92028, Fallbrook
Submitted At: 9:46pm 07-16-24

I SUPPORT ESTABLISHING DEVELOPMENT STANDARDS FOR SITING BATTERY ENERGY STORAGE SYSTEM PROJECTS IN THE UNINCORPORATED COUNTY. THE SAFETY OF ALL OUR RESIDENTS SHOULD BE EVERY SUPERVISORS PRIORITY.

Jeniene Domercq

Location: 92028, Fallbrook
Submitted At: 9:26pm 07-16-24

There needs to be standards set for BESS. These storage systems can adversely affect communities and neighborhoods. Please vote in support of this agenda item.

Michele McCaffery

Location:
Submitted At: 9:15pm 07-16-24

I support establishing standards for the placement of BESS facilities in the unincorporated areas of San Diego County. This type of infrastructure needs to be placed away from populated areas to minimize the threat to people and the environment.

Debra O'Neill

Location: 92029, Escondido
Submitted At: 8:45pm 07-16-24

I support the Board of Supervisors request to establish standards for siting BESS projects in the unincorporated county. In particular I support the idea of not placing these in residential areas. I think all the points made by Supervisor Desmond are vital to the safety of the community. Thank you all for putting our safety above the speculation of companies trying to profit on buying cheap power and selling it back to us at a higher rate.

Renee Sousa

Location: 92028, Fallbrook
Submitted At: 8:20pm 07-16-24

I believe standards should be developed and any risk minimized for surrounding community. We find so many entities wanting to change Fallbrook with battery storage facilities, opening roads and destroying neighborhoods. Many of these projects are without studies or standards. This is irresponsible and mostly at the expense of the neighborhoods we cherish.

Sarah FAFO

Location:

Submitted At: 8:20pm 07-16-24

Anyone who supports this.. you can store them in your backyard and house!

Seth Brown

Location: 92028, Fallbrook

Submitted At: 6:38pm 07-16-24

Establishing development standards is a must for these types of facilities. I've worked with similar battery technology for many years and have had to evacuate buildings due to toxic fumes from a fire the size of a burning marshmallow. We already can't insure our homes due to fire concerns. At face value, continuing to develop these facilities in unincorporated neighborhoods seems like an attempt to take advantage of the lesser informed.

Kathy Wootton

Location: 92028, FALLBROOK

Submitted At: 5:50pm 07-16-24

As a citizen of Fallbrook I request ESTABLISHING DEVELOPMENT STANDARDS FOR SITING BATTERY ENERGY STORAGE SYSTEM PROJECTS IN THE UNINCORPORATED COUNTY [FUNDING SOURCE: ONE-TIME GENERAL PURPOSE REVENUE]

Debra Copelland

Location: 92028, Fallbrook

Submitted At: 4:00pm 07-16-24

Oppose this in the insane project being in this beautiful city of Fallbrook in the middle of a neighborhood, you don't have the resources if it catches on fire why wasn't the citizens a Fallbrook informed before putting it in!! (The back page of a paper doesn't count) before this project was installed

Linda Sprague

Location: 92028, Fallbrook

Submitted At: 3:55pm 07-16-24

Mission is the major evacuation route in case of an emergency. What were you people thinking allowing this to be built in town? I can't imagine the fire department signed off on this facility. It took an act of god to get a gate put in but they allowed a ticking time bomb in a fire prone area put in under our noses! Shame!!!!

Doug Morrow

Location: 92028, Fallbrook

Submitted At: 3:36pm 07-16-24

Creating standards for this scope of work is essential to the health and safety of the communities in which these facilities are installed.

Stephani Baxter

Location: 92028, Fallbrook

Submitted At: 3:11pm 07-16-24

LONG OVERDUE. Thank you for agendizing this! I am in FULL SUPPORT of pausing any existing BESS applications, along with establishing and adopting siting standards for placement of BESS facilities. In fact, the Fallbrook BESS should be removed entirely as it is surrounded by dense residential and was placed unscrupulously.

Mellisa Leathery

Location: 92028, Fallbrook

Submitted At: 2:27pm 07-16-24

Why were there not development standards in place BEFORE these systems were built? If the presence of BESS's expose the local community/environment to additional health and safety risks- yes- obviously standards need to address that, incorporated or not. There also needs to be Emergency Planning Response considerations to address the potential for accidents. Any threat to human life & property should be taken seriously, if it isn't, companies end up settling class action lawsuits in later years.

Julie Miller

Location: 92028, Fallbrook
Submitted At: 2:23pm 07-16-24

Do not appreciate the choice made for us through back door deals.

michele smith

Location: 92028, fallbrook
Submitted At: 2:09pm 07-16-24

It is morally reprehensible that anyone on a planning committee and county boards would think that it is okay to put BESS in a populated area. WHAT WERE YOU THINKING?????? The lack of foresight and genuine concern for the community is appalling. There are BESS facilities in existence that have caught fire and the fires can't be extinguished. The noise they generate is problematic and who knows what other medical ailments they will produce in those who live around there.

Jane Wasko

Location: 92028, Fallbrook
Submitted At: 1:39pm 07-16-24

I oppose this battery storage within Fallbrook and the overwhelming hideousness of the power grids and towers. Now that the batteries are installed, are we going to address safety. Might all of this been done prior to the installation? Not one Supervisor answered my questions as the skyline of Fallbrook changed overnight. Seems as though the horse already left the barn.

Glenda Wood

Location: 92028, Fallbrook
Submitted At: 1:38pm 07-16-24

We pay absurdly high costs for electricity in Fallbrook. SDGE wants to use Fallbrook for energy storage - at what risk to our residents? And what is OUR reward? Are we GUARANTEED very low energy costs? No, so why do we care to take risks to accommodate the corrupt SDGE? We don't. We could all install solar & our own Tesla batteries, & live off grid, but that's not "allowed" because then SDGE can't gouge consumers, & provide kickbacks to the corrupt CA government. We're tired of the grift. NO.

kathie morris

Location:
Submitted At: 12:28pm 07-16-24

The BESS plants are dangerous, underdeveloped, and absolutely should not be incorporated into communities such as Fallbrook. Fallbrook BESS is ugly, (looks like a fully fenced prison) extremely noisy and the alarms go off at all hours. The majority (by a landslide) of residents in Fallbrook would like to see this eliminated from our community entirely. Is Fallbrook's fate to be the next Otay Mesa, Idaho, Arizona, or South Korea? Just to mention a few huge adverse events.

Phyllis Laderman

Location: 92029, Escondido
Submitted At: 11:52am 07-16-24

My husband and I are wholeheartedly in support of establishing standards for battery energy storage facilities. We would be sharing a property line with the proposed Seguro BESS and do not want to live in fear of toxic chemical reactions causing fires. There are also noise, lighting and environmental concerns. Although these facilities are needed they need to be carefully located away from residential homes, hospitals, day care centers or schools.

Andrew McSparron

Location: 92029, ESCONDIDO
Submitted At: 10:48am 07-16-24

My name is Andrew McSparron. I share a property line with the proposed Seguro Battery Energy Storage

System, I urge the Board of Supervisors to adopt safety and siting regulations through codification for all of these extremely dangerous facilities. This type of facility must not be placed in the middle of or near residential areas, schools, day care facilities, senior centers, hospitals or other medical facilities.

Elizabeth Walters

Location: 92036, Julian
Submitted At: 10:38pm 07-15-24

Batteries definitely should Not be allowed to be located in residential areas, or near daycares and schools. I'm a designer/project manager for building projects and this seems like an obvious stance that would adhere to zoning regulations.

Eileen Delaney

Location: 92028, Fallbrook
Submitted At: 5:17pm 07-15-24

The Fallbrook CPG wholeheartedly support these recommendations!
With SDGE's BESS 2.0 project underway in Fallbrook (surrounded by residential), and with no input from our community, this is a prime example of where a BESS should NOT be placed.
Fallbrook CPG can offer many ideas and suggestions relevant to the recommendations and would like to work with the CAO as a stakeholder and participant in the establishment of the BESS Standards.

Thank you,
Eileen Delaney, Chair
Fallbrook Planning Group

Ardis Duhachek

Location: 92028, fallbrook
Submitted At: 9:07am 07-13-24

I support the recommendations of Jim Desmond. Adopting rules for how BESS projects are processed and located in the unincorporated areas such a Fallbrook is needed.

Earl Goodnight

Location: 91905, Boulevard
Submitted At: 10:47pm 07-12-24

With the advancing battery technology, a safer battery is available. Why not require the use of this type of battery in all Battery Storage projects no matter where they are proposed.

Earl Goodnight

Location: 91905, Boulevard
Submitted At: 10:47pm 07-12-24

With the advancing battery technology, a safer battery is available. Why not require the use of this type of battery in all Battery Storage projects no matter where they are proposed.

BillieJo Jannen

Location: 91906, Campo
Submitted At: 4:15pm 07-12-24

Recent incidents with lithium batteries, both in BESS and in autos have made it clear that these batteries have no business being near people's homes and businesses. They have no place in fire-prone rural regions either. Please adopt these regulations and avoid making yourselves responsible for the tragedies that could occur from improper placement of BESS facilities.

E M

Location: 92028, Fallbrook
Submitted At: 6:01am 07-12-24

I support the recommendations in agenda item 8 from Supervisor Jim Desmond and request that the Board adopts these common sense standards. There must be some standards and accountability in vulnerable unincorporated communities. Thank you, EM

Gary George

My wife and I live in Fallbrook less than a mile from the battery storage facility. We both support the recommendations in agenda item 8 from Supervisor Jim Desmond and respectfully ask that the Board adopts these common sense standards.
