I believe the federal government should support those who are crossing the border, rather than the county of San Diego. We have a tremendous number of costs required to care for our own citizens, and do not have the resources to mitigate against a national crisis of the open border. Federal branches should provide funding for this crisis. Thank you.

This is the responsibility of the federal government not the county

I oppose the county involving itself in financing illegal immigration. This is a never-ending financial commitment and not part of the responsibility of county government. The county must follow the law and encourage the federal government, governor of CA, to close the border and pay for the border disaster.

The County of San Diego should use hard earned taxpayer dollars to support its citizens not illegal immigrants. Stop supporting the invasion of our country and deport illegal immigrants to their country of origin. Close the border. We need to protect our country and focus on the needy in our own communities, such as the rampant homeless crisis. Vote to oppose additional funding for illegal immigrant welcome centers.

No taxpayer money should be spent on illegal immigration. Period.

What is Homeland Security securing? Obviously and intentionally NOT the southern border. The OES is responsible for prevention, preparedness and response efforts related to terrorism and other catastrophic events. The invasion of the southern border is a catastrophic humanitarian event. This \$\$ should only be used to re-admit the illegal migrants back to their country of origin.

Border shut be secure and we taxpayers in San Diego County should not be paying anything towards illegal immigration.

\$3.2 million for security is great! It would be even greater (and maybe cheaper) if the Dept.of Homeland Security did its job and did not allow the border to be as porous as it is.
