I support this%100. Children need protection as they are unable to protect themselves against these predators. Anyone who abuses children (and animals) should be punished to the fullest extent of the law just short of the death penalty.. That in my opinion, would be an easy way out and I feel they should be left in prison to endure any kind of cruelty fellow inmates might inflict. My heart bleeds for children who have been abused in any form.

Any supervisor in opposition of this item reveals their preference of criminals over children.

As a child sexual abuse survivor, this issue hits close to home for me. Protecting kids from predators has to be at the top of the list. Please back Mary Bella's Law and AB 47 — and make sure it's not just about punishment, but also prevention and real support for survivors and families. No child should have to live through what I did.

Sounds good. As people are generally more active at an older age, it is important that the criminal justice system keep up by not releasing felons and other people who commit serious crimes too early.
