PUBLIC COMMUNICATION RECEIVED BY THE CLERK OF THE BOARD

From: Karenvusa

To: FGG, Public Comment; BOS, District1Community; Anderson, Joel; Lawson-Remer, Terra; Fletcher, Nathan (BOS);

Desmond, Jim

Subject: [External] BOS Meeting Tomorrow Item #13 Covid and MonkeyPox response

Date: Monday, October 10, 2022 3:13:34 PM

Attachments: Chart Stats per Covid Wave Updated 9-21-22 Incl Hosp.docx

COVID-19 Cases Wave 1 (updated 9-1-22) Nov 15 2020 to Feb 15 2021.pdf COVID-19 Cases Wave 2 Updated 9-1-22) July 15 to Oct 15 2021.pdf COVID-19 Cases Wave 3 (updated 9-1-22) 12-14-21 to 3-14-22.pdf

COVID-19 Cases Wave 4 (updated 9-21-22).pdf

COVID-19 Deaths Wave 1 (updated 9-1-22) Nov 15 2020 to Feb 15 2021.pdf COVID-19 Deaths Wave 2 (updated 9-1-22) Jul 15 2021 to Oct 15 2021.pdf COVID-19 Deaths Wave 3 (updated 9-1-22) 12-14-21 to 3-14-22.pdf

Covid-19 Deaths Wave 4 (updated 9-21-22).pdf

Dear District Supervisors:

I've been following the County Weekly Reports and collecting data from the County website for almost a year now.

I can't see that we are in a State of Emergency. We've had 4 waves since November 2020. Hospitalizations have never exceeded the first wave peak of 1,725 patients. We're currently at 151 Covid patients county wide - out of approximately 8,600 beds in the County https://www.sandiegouniontribune.com/news/health/story/2020-03-16/regions-hospitals-could-face-thousands-of

Here is a link (from the County website) for current hospital bed status. The chart is for the entire pandemic. https://public.tableau.com/views/COVID-19HospitalsDashboard/Hospitals?:embed=v&:showVizHome=no

The County gives **excellent** statistics for Covid. The one thing I can't find to gauge the virulence of each wave is a **"Death per 1,000 Cases" chart** for each covid wave. I've made my own using County data which I've attached. Note Omicron had 1/6 the death rate of the Nov 2020 wave and this summer's wave had 1/12 (one twelfth) the death rate. It seems each wave is getting less severe. If I'm in error, I would love for someone from HHSA to contact me.

Where is the "Emergency"? I'm not aware of SD County needing assistance from other counties. The Unified Disaster Council had a meeting August 2022 where reports were given for Monkey Pox and Fentanyl overdoses - but not for Covid. If we had been in an emergency, I'm sure a Covid update would have been provided.

Attached please find my Death per 1,000 Cases chart and screenshots from the county providing documentation for my numbers.

Thank you for your consideration,

Karen V
