These are matter of public interest. Sole-Source Contracts, with their potential for fraud, Ordinances (both 1st and 2nd readings) and appointments should be in the DISCUSSION section, not buried in consent with a number of other items competing for time and attention

In addition, all applicants or appointees should be tested from previous experience, and the results published, as to how much they support open dialog and how ready they are to consider alternative suggestions. There are too many people in government, local on up, who do not give a hoot what the people who bear the brunt of their decisions think.

Like the phony baloney storage lease in Bonita where you put a fire hazard industrial scale polluter in a rural residential zone next to a river people use for drinking water.
