Critical financial oversight is needed over the County Supervisors and the newly/recently appointed Tax Collector - in order to ensure sound investment policy and management of taxpayer funds, and to safeguard San Diego County from partisan investment philosophy and practices. The county has a serious deficit, massive deferred maintenance, and a serious spending problem. Sound fiscal management and oversight of all county financial decisions is KEY.

Paul Henkin

The delegation itself sounds OK.

However, in Appendix B of the investment Policy, there should be a minimum credit rating for all investments, but especially for US Treasury, agency obligations, repurchase agreements, and supranationals, which could make up a substantial part of the portfolio.
