**Cc:** [FGG, Public Comment](#)  
**Subject:** [External] AS-NEEDED COMMUNITY VACCINATION SERVICES, AND FUTURE FUNDING (please include with agenda item 8)  
**Date:** Thursday, November 30, 2023 2:35:56 PM

---

Hi Supervisors,

The Board letter says "The contract awarded from the competitive solicitation provides community vaccination services for COVID-19 vaccines and other immunizations...." Why the emphasis on COVID? It is no longer a serious disease, more like a flu. Yes it can be fatal, but so can a flu. It is pretty anachronistic to keep trumpeting COVID, COVID, COVID. The Board letter needs to be rewritten to omit mention of any one specific disease (like COVID) and emphasize immunizations for those who absolutely need them.

The way that HHSA hewed exactly to the CDC's lies, distortions, and misinformation, and pious excuses during COVID despite warnings, from me, from Joel, from thousands of others, that there was misinformation on both sides. I do not think that the government should be in charge of providing even as-needed vaccinations.

The slope is too slippery. Once the government has a supply, it can push them on us like it did during COVID with its one-size-fits-all orders and mandates which destroyed our schools, our economy, and totally messed up our lives.

Regards,

Paul Henkin
