At the last meeting it was obvious transparency was not being provided by some supervisors and their little committees. Insults were thrown by one specific supervisor to another supervisor questioning the whereabouts of documentation from a committee meeting. Funny, the documentation was never admitted to or provided. Obviously, this board is lacking in transparency.

Having all agendas and other information about ad hoc committees in one place would surely be a great improvement to how local government does business. It would make research easier, increase transparency, and promote public discourse and hopefully more good ideas.

It might be a bit expensive but I think that it is well worth it to subject these as hoc committees to the Brown Act standards of open government since these committees do not seem to be covered and they may be created to maintain secrecy in government.
