This was put on the consent calendar at the first reading. To allow a full public discussion off the agenda item, an ordinance does not belong on the consent calendar. Ridiculous. Especially if you interrupt randomly because you can't decipher what the subject is from the words in the title - Taxis (or whatever the subject is) like Terra did to me on Jan. 27.

As for the ordinance, I do not know why you define Higher Impact Events as temporary (sec. 21.2802(e).) It appears that this leaves out work on permanent setup, operation, or teardown of rigging, large portable power distribution systems, or both which a temp might do. This seems to negate what the ordinance is trying to do.
