Hello,, we already have a system that the county could follow for Elders. The county foster care system. If the foster care system is working for our children, some would disagree. If, it's good enough for our children then the model would work for our elders. Are we making this complicated. Use you noddle!

Lovely, let us make the seniors share a room. Stop providing services to illegal residents so there are funds to assist our seniors.

If the goal is to make less people of the 55-and-over set homeless, why match up these seniors to just other seniors. If a senior finds a non-senior compatible and they move in together, will that not reduce homelessness? So why put a bunch of red tape in the way?

Then, the taxpayers would be paying \$296,000 to match up about 50 seniors, almost \$6,000 per match. Are there not cheaper methods - face-to-face? Internet dating services?
