Big nope! Affordable housing pigeonholes people. It hinders people from improving their life or striving for something better. The government persuades individuals to own nothing and to be happy - big fat lie. The government convinces vulnerable people they are the savior in their lives. The government steals their independence and freedom. The government robs the people of their dignity. People beware of what you give up for so-call affordable housing. What is the true cost? People, look at the supervisors on this board - do you want them in charge of your life? Regarding incentives for landlords, there does not appear to be any controls to prevent abuse by the landlords in this program.

We should not be Providing loans with a minimum 55-year affordability period, at or below market rate [Sec. 232.5 (c)] except to a few people.i This gets us in the poorhouse and assumes that that people loaned to will not do better off in 55 years which is unlikely.

Salaries of County employees should not be paid from a trust fund (g). That depletes the trust fund unnecessarily. The trust should be used for its stated purpose, not for salaries.

I think that subsection (g) preference should be given to projects to house people with serious mental health issues. They actually would benefit from a 55 year reduced loan.
