Good Morning, Supervisors

Re: PLEDGE THE COUNTY OF SAN DIEGO TO BECOME A PARTNER OF

CALIFORNIA'S CLIMATE ACTION COUNTS INITIATIVE

Climate change is not being handled properly.

I think that EVs and BESS are increasing the possibility of serious wildfires. It is happening already.

Trash recycling is not working.

There are other geologic and environmental factors at work, which we could mitigate-plastics in the air and all over, depletion of groundwater, mining emissions, and so on. Long list.

At this time, California seems to be doing what is politically feasible rather than environmentally correct. I do not think we need to join it.

Regards,

Paul Henkin
