The people of San Diego deserve access to food, medical care, affordable housing, and other community supports. As an educator, I serve students every day who benefits from these programs and their lives would be significantly impacted by this bill if passed.

The county needs a game plan and this is something rather than waiting and doing nothing. A couple of our supervisors may either wait to try and do everything perfectly adding additional bureaucracy - rather than moving and jumping for something good - and will abstain or vote no, which will devastate the same communities they claim to serve. Our people deserve access to food, medical services and housing, this is a move to help the community and it should be supported.

I live in Escondido, zip code 92026. The Homeless situation is not progressing enough for the homeless to find shelter for a night or better yet permanent housing. Health care for lower income San Diego residents has to remain in place because if it declines then where do they go to get care. When I go to a small clinic and see my

doctor, I can't handle new changes, new questions to answer before you get to see a doctor. One good thing, my health plan SCAN pays for it (I'm 76 years old). Think about the hurdles of healthcare for the average citizen to jump over. Why do I need to travel so far to see a specialist. I am only beginning to like my doctor after seeing him for about 3 years or more.

Stop wasting tax on USA plant that does not treat Tijuana River and only treats sewer line from Mexico Useless Plant. Just south of Tijuana hotel bar district 1000s of shacks the poor have no utilities no sewer line forced to dump there sewage (Hydrogen Sulfide is Feces) directly in Tijuana River. EVERY DAY USA BEACHES CLOSED THEN CLOSE THE BORDER NOT OF PEOPLE BUT OF THE \$MILLIONS\$ OF COMMERCE AND WATCH HOW FAST MEXICO WERE HELP THEIR OWN PEOPLE GET THEM ON THE SEWER LINE! WHY DID IMPERIAL BEACH MAYOR VOTE NO AND NOT HOLD MEXICO ACCOUNTABLE?

I support this prudent decision to prepare our County for the potential rescission of funding from the Federal Government, which would be a disastrous betrayal of our most vulnerable. The public good is the highest good, and this action follows that spirit by placing the County on firm footing as we navigate these tumultuous times.

With all due respect, we actually don't have a responsibility to keep people fed, housed and clothed. People have that responsibility for themselves. The tax cuts that you are misrepresenting are meant to require able bodied people to work. So stop the gaslighting and look at the real existential problem which is massive spending by the Democrats that is forfeiting our children's futures. We need to reign in the waste and the fraud and that is exactly what this bill is doing. I support your looking for ways to be more efficient but it's time we made able body people take care of themselves. Let's teach them to fish, not fish for them

You are the officials that needy and poor sandiegans rely for protection now that the federal government want to wipe out all aid. We must support folks in need. Our/my community is quickly turning into a community for only those very very wealthy. This will not work going forward. People with families are commuting for hours every day (because rents are so high here) in order to scrape by are going to lose medical care, food assistance and other support needed to stay afloat in southern California. These are teachers, medical workers, grocery clerks, gardeners, housekeeper, construction workers, restaurant staff, etc. We need them, and they need out support.

Andrea Powell

Dear Board of Supervisors -- I truly believe we should and must protect our community and our neighbors by ensuring vital programs like Medicaid and services for those who are suffering from economic devastation is key. I am a single mom with an 11 year old daughter. I have a Masters in European Law and have published books and worked for the federal government. Yet, I can barely survive here and each month is scary b/c just in 4 years of living here, my rent has increased from 2400 to 3400 - with no pay increase. So, we are moving back to Washington, D.C. where it's much cheaper. I'm not the only one. So, this is not just about protecting those who are vulnerable, it's about not turning San Diego and the surrounding area into a community where those who are not extremely wealthy have to either suffer greatly or leave. This is a common sense response to our federal government who plan to continue to ruin the lives of the working class. This is not how we should treat people.

San Diego County can be positioned to work smarter or face cutbacks that are draconian. The reason a fast thinking leadership must consider using new tools is because aid may not be there when it is needed for critical programs such as the housing crisis. Adequate services are required to keep the population safe.

Yes, the County and the City should do all they can to prevent people from losing the programs they need.

It irks me that when the City is in financial trouble that they would plan to get rid of all our present trash containers, and then spend a fortune on new ones. How can this BE?!!!

I urge the Board to support this proposal. Because doing nothing would be reckless, and if we fail to plan then we plan to fail.

We have an opportunity to keep people housed, fed, and cared for, but if we do not act, the consequences will be real:

More people losing health coverage. More children and seniors going hungry.

More families pushed into homelessness

Let's be prepared. Let's be responsible. Let's lead. Thank you for your fierce movement forward!

this plan wants to steal money from the emergency reserves.

We can't plan when an emergency will happen, but we know one or more will.

This is a very dry year, the chance of huge wildfires are possible.

In recent history 2003 the Cedar fire, 2007 the Witch-Creek and many others have killed people, burned thousands of acres and destroyed buildings.

San Diego has been fortunate to be spared from large earthquakes.

We need a large fund for such emergencies.

Instead of taking emergency funds and adding them to the County budget, there should be audits to be sure only essential services

are required at current levels.

We don't need the Office of Sustainability and Environmental Justice or the Office of Equity and Racial Justice.

Those funds could be used for the purposes this proposal requires. Actually they could be used after the services are audited.

Please spend the taxpayer's money wisely.

We need to teach people how to be responsible for themselves. A start is to emphasize contraception. Teach people. Tell them that these benefits are not going to be available as they were. The U.S. is going bankrupt. Social Security and Medicare are fast running out of money. Teach the young people the reality of the situation, and need to limit the size of their families. Mass deportations will help. Less people here in San Diego will mean a lesser burden on the system. Their home countries will have to address these issues. We can no longer afford to.

This comment section is far too small, so I have to break up my comments into many submissions.

Low Income assistance does need to be streamlined with outcomes documented to improve efficiency, including stopping developers who grossly overcharge for low income units, while receiving far too much in generous density bonuses for the few "low income" units that are provided to a few lucky lottery winners. The project sites

selected are often within the most expensive areas of various regions, and that is for the benefit of developers who want to work near their own expensive homes.

This rip off is NOT solving the affordable housing problem. It's costing taxpayers a boat load of money.

CA and local governments need seek out low income housing options in lower cost areas, even out of state.

5 to 10 low income homes could be built in lower cost states for the cost of 1 home in CA.

If the goal is to help more people, then consider that.

As Californians, always at the forefront of attacks from the fascists/Confederates/etc. attempting to dismantle every aspect of public good in this country, we must take a more powerful stance. Health care, food/water, and shelter are human rights. San Diego County would have the finances to put an end to these needs, but instead money goes to an ever-increasing police budget while our federal taxes go to help the same states that claim to hate us Californians, along with bombs to drop on various countries. For all the nonsense we always hear about States' Rights, show the Federal Government our strength as a state and as a county. If our needs are not being met and our Rights as a state violated, why should we continue to pay tribute to a nefarious entity who mocks us while our homes and forests burn and our people suffer? We are a powerful state and county. Empower our communities and allow our state to thrive. Do not let us be bullied. Keep the power of local communities alive.

Dear Supervisors. I support 2 items: 1. No increase in the 25/26 budget. 2. Yes on all of these proposals. Yes, I understand that will mean making very hard choices, and that some very progressive programs will have to be

scrapped or delayed. No train to no where, no spending our reserves, no to all things SANDAG, no assumption of state or fed programs, stick in our County lane and put people first and delay all of the cultural things we aspire to but cannot afford. San Diego is more than a place, it's an idea a concept. Let's rise to, cut all admin excesses and impractical aspirations. Let's not use our resources to teach political opponents or the electorate lessons. Sunny, lean, forward thinking, practical and friendly, please. It's who we are.

other cultural things aside. Let's be proud San Durham's and do what's right for San Diego. Our county and city are more than places, they are ideas mp or concepts. Let's rise to them with open eyed practicality.

I support this proposal to protect our local programs in light of these outrageous federal cuts. Protecting our most vulnerable neighbors is not only the right thing to do, it benefits everyone in the community. Our teachers have more time to teach when students come to school fed instead of hungry, safely housed instead of insecure. Our parks, beaches, and neighborhoods are cleaner and safer when at-risk San Diegans are able to get the housing and support they need. We shouldn't let this administration's cruelty and lack of common sense end the progress we've made to improve the lives of everyone in our community, both directly and indirectly. We HAVE to take care of those in need. Put yourself in their position. Pretend that you have a job but it is so low paying that you cannot feed your family. Do not be like the republicans that could care less about the needy. We need to keep all of the parks and libraries open. If you need to tax someone tax the rich. How much money do they need! Please, be a good human. Do not be greedy and selfish. Vote for this proposal.

Has the state of CA reconciled the billions of dollars lost (via state's audit) which was targeted to help the homeless. My understanding is that no one can clearly locate and itemize the funding of where the \$\$ went. Thank you

I oppose cuts to funding of vital programs and services such as those that provide access to housing, food, and medical care for the most vulnerable members of our community. As a current full-time law student and a single mother who has worked diligently to transcend homelessness (2019) and acute poverty, I relied heavily on programs such as these as I worked to reclaim my life over the course of the past 6 years. The importance of these programs cannot be understated because they have a profound and lasting impact on individuals, communities, and society as a whole. For many these programs are the bridge that allows people to reclaim their lives and become fully self-sufficient and contributing members of society. For others, these programs are the final thread helping them maintain stability and safety. I LOVE AND CARE FOR MY COMMUNITY AND WE DESERVE TO HAVE OUR TAX DOLLARS SPENT IN WAYS THAT ARE BEST FOR THE PEOPLE.

2025-0620 - Before we do any more spending, we must take control of our San Diego County budget. We don't want our spending to get out of control like San Diego City, which has a severe budget deficit due to out of control spending. We even had to fund their fire pits.

Also, before we fund more money into our social programs, let's make sure we are funding legal citizens and permanent residents, NOT illegal immigrants who came into our communities illegally. We cannot afford it, and it impacts our community greatly by affecting our schools, hospitals, homeless, veterans, etc. We are a very giving County, but we must take care of our legal homeless, veterans, and financially hurt citizens. Thank you, Tom

This bill only serves the genocidal mentality of Trump and those who serve him like the king he acts like he is.

The citizens of this country are having their health services cut and tax dollars stolen for the benefit of a tyrannical regime. People who rely on Medicare services are at terrible risk because of this. Diabetics having even more difficulty getting insulin will kill them. A body count already increasing as Trump persecutes minorities and LGBTQ+ people as he pleases, abusing military power to control dissidents to his monarchy. This flagrant abuse of power disguised as a budget cannot be left to stand. For the sake of the people that make this a country instead of a throneroom, this bill and many others like it, such as the IODA which fails at protecting any children and only acts as a form of abusable censorship, must be opposed.

Whether it's with housing, Medicaid, or food provisions, it's humane to help people in need. It's unnecessary to give billionaires tax cuts. The so called "big and beautiful" bill is anything but. It's a terrible piece of legislation designed to cut aid for people who need it most to benefit people who need it least. Coming from this administration, I shouldn't be surprised but it's still disgusting

I believe it would be wise for all of the Supervisors to proactively support and plan for this worst case scenario, and do the best to optimise the utilization of the limited resources we do receive. Act now to brainstorm how to limit the impact of these cuts on our county. This is a bipartisan issue and deserves proper planning by the Board.

So my bottom's line is, I fully support the idea of keeping the current funding levels in place (with timely adjustments for inflation, service increases, and the inflationary indexes, etc.), WH

Your thinking is completely out of step with the LAW which are supposed to govern the USA. It is so dispicable, and the fact that so many voted for you is an indictment of them as well as you. I honor those who serve, but you are such a bleeding lamb, and San Diegans and Californians have FINALLY begun to see just how incompetent their government is, and you are. What a shame that somewhere your education was such that you think as you do. Daily, weekly, the realities of Newsom, Mike Levin, Padilla...all of you, have heaped shame on California. As President and CEO of Serving Seniors, a nonprofit that serves over 11,000 low-income older adults throughout all areas of the County, I strongly support the County's creation of a plan to respond to the proposed federal cuts. The majority of our clients utilize Medi-cal and SNAP. Many of the seniors we serve are currently experiencing homelessness or are housing-insecure. These programs are not only life-saving, but preventative and provide basic needs to thousands of older adults, helping to keep many fed and housed and preventing homelessness and higher levels of care.
